VOLUME 57 · SUBJECT INDEX

A

Absence seizures, Demonstration of thalamic activation during absence seizures using $H_2{}^{15}O$ positron emission tomography, **245 P**

Acetylcholine receptor antibodies, Clinical implementation of anti-acetylcholine receptor antibodies: *matters arising*, **396**

Acoustic neuroma, The Sheffield experience in the treatment of acoustic neuroma by stereotactic radiosurgery, **1149 P**

Acquired chronic demyelinating neuropathy, Subgroups of acquired chronic demyelinating neuropathy and their response to immunosuppressant drugs: steroids induce deterioration in a motor subgroup, **511 P**

Acute inflammatory polyradiculoneuropathy, Electrophysiological sequels of inflammatory demyelination, **S72**

Acute phase response, Iron status, movement disorders, and acute phase response in elderly psychiatric patients, **208**

Acute posterior multifocal pigment epitheliopathy, Acute posterior multifocal pigment epitheliopathy with crebral vasculitis, **522 P**

Adie's pupils, Limb ataxia, facial numbness, and Adie's pupils: ataxic ganglionopathy, **1296 P**

Admissions, Nonoperative admissions to a regional neurosurgical unit: are they justified? **389 P**

Adrenoleukodystrophy
- High dose immunoglobulin IV treatment in adrenoleukodystrophy, **S58**; discussion, **S60**
- X-linked adrenoleukodystrophy with non-diagnostic plasma very long chain fatty acids, **759**

Agraphia, Naming difficulties in alexia with agraphia for *kanji* after a left posterior inferior temporal lesion, **609**

AIDS
- Cortical and subcortical JC virus infection: two unusual cases of AIDS associated progressive multifocal leukoencephalopathy, **994**
- Detection of EBNA2-mRNA in primary central nervous system lymphomas in patients with AIDS, **509 P**
- Lymphomatous meningitis in AIDS-related systemic non-Hodgkin's lymphoma: a report of eight cases, **150**
- Progressive multifocal leukoencephalopathy in AIDS: a clinicopathologic study using in-situ hybridisation and immunohistochemistry, **507 P**

AIDS-dementia complex, Cerebrospinal fluid HIV-1 p24 antigen and culture: sensitivity and specificity for AIDS-dementia complex, **784**

Airgun pellet, Spontaneous migration of airgun pellet in the brain, **404**

Airway dysfunction, Upper airway dysfunction in patients with Parkinson's disease, **248 P**

Akinesia, Akinesia in Parkinson's disease: a PET study demonstrating impaired mesial frontal activation reversed by apomorphine, **509 P**

Alcohol abuse, Transcallosal intraventricular tumour excision, alcohol abuse, and amnestic syndrome: *letter*, **766**

Alexia, Naming difficulties in alexia with agraphia for *kanji* after a left posterior inferior temporal lesion, **609**

Algorithm, Diagnostic imaging algorithm for cervical soft disc herniation, **724**

ALkappa amyloid, ALkappa amyloid in a solitary extradural lymphoma, **751**

Allodynia, Myelinated Aβ-afferents signal allodynia associated with postherpetic neuralgia, **516 P**

Alzheimer's disease
- Amyotrophic lateral sclerosis and dementia of Alzheimer type, **519 P**
- Apolipoprotein E polymorphism in Japanese patients with Alzheimer's disease or vascular dementia, **1414**
- β-amyloid protein deposition in the brain after severe head injury: implications for the pathogenesis of Alzheimer's disease, **419**
- Cholinergic supersensitivity of the iris in Alzheimer's disease: *letter*, **1544**
- Correlation of neuropsychologic scores and cerebral blood flow decrease in patients with dementia of Alzheimer type, **523 P**
- Event-related EEG potentials in old age and in dementia of the Alzheimer type, **523 P**
- Extrapyramidalism in Alzheimer's disease, **1503**
- Heterogeneity of neocortical cerebral blood flow deficits in dementia of the Alzheimer type: a [^{99m}Tc]-*d,l*-HMPAO SPECT study, **285**
- Initial cognitive changes in a patient with familial Alzheimer's disease, **1295 P**
- Initial letter and semantic category fluency in Alzheimer's disease, Huntington's disease, and progressive supranuclear palsy, **1389**
- Measures of medial temporal lobe atrophy in Alzheimer's disease: *letter*, **1438**
- Relation of anosognosia to frontal lobe dysfunction in Alzheimer's disease, **805**
- Remote memory in early Alzheimer's disease, **1292 P**
- Specificity of changes in cerebral blood flow in patients with frontal lobe dementia, **790**
- The earliest cognitive change in a person with familial Alzheimer's disease, **967**
- White matter magnetic resonance hyperintensities in dementia of the Alzheimer type: morphological and regional cerebral blood flow correlates, **1458**

Amino acids, Change in the concentrations of amino acids in cisternal CSF of patients with essential tremor: *letter*, **1012**

Amiodarone, Antiarrhythmic drugs and polyneuropathy, **340**

Amnesia
- Amnesia: neurology in literature, **741**
- Diencephalic amnesia: possible role of white matter structures: *matters arising*, **1157**
- Post-traumatic amnesia: still a valuable yardstick, **198**
- Primary amnesia of insidious onset with subsequent stabilisation, **1366**
- Pure amnesia after unilateral left polar thalamic infarct: topographic and sequential neuropsychological and metabolic (PET) correlations, 27: *matters arising*, **1157**
- Transient epileptic amnesia - a clinical update and a reformulation: *matters arising*, **1549**
- Transient memory loss for people, **862**
- Transient topographical amnesia, **1423**

Amnesic syndrome
- Amnesic syndrome after theophylline associated seizures: iatrogenic brain injury, **643**
- Transcallosal intraventricular tumour excision, alcohol abuse, and amnestic syndrome: *letter*, **766**

Amoebic brain abscess, Amoebic brain abscess: a rare but serious complication of *Entameoba histolitica* infection: *letter*, **240**

Amputation, Functional effects of nerve injury and amputation, **521 P**

Amygdalar sclerosis, Amygdalar sclerosis: preoperative indicators and outcome after temporal lobectomy, **1099**

Amygdalohippocampectomy
- Outcome of surgery for chronic temporal lobe epilepsy: anterior temporal lobectomy *v* selective amygdalohippocampectomy, **1151 P**
- Psychiatric morbidity after surgery for epilepsy: short term follow up of patients undergoing amygdalohippocampectomy, **1375**

Amyloid, ALkappa amyloid in a solitary extradural lymphoma, **751**

Amyloid angiopathy, Cerebral amyloid angiopathy: *neurological picture*, **1457**
- β-Amyloid protein, Beta amyloid protein deposition in the brain after severe head injury: implications for the pathogenesis of Alzheimer's disease, **419**

Amyloidosis
- Idiopathic AA amyloidosis manifested by autonomic neuropathy, vestibulocochleopathy, and lattice corneal dystrophy, **635**
- Peripheral neuropathy associated with dialysis amyloidosis: *letter*, **1137**

Amyotrophic lateral sclerosis
- Abnormalities of cognitive function and cerebral activation in amyotrophic lateral sclerosis, **248 P**
- Amyotrophic lateral sclerosis and dementia of Alzheimer type, **519 P**
- Apparent decline of ALS in the high-incidence disease epicentre of Irian Jaya, **511 P**
- Changes in CSF amino acid concentrations during the evolution of amyotrophic lateral sclerosis: *letter*, **119**
- Early generalisation of denervation in amyotrophic lateral sclerosis, **518 P**
- Elastin cross-linking in the skin from patients with amyotrophic lateral sclerosis, **94**
- Expression of androgen receptor in X-linked spinal and bulbar muscular atrophy and amyotrophic lateral sclerosis: *letter*, **1274**
- Increased concentration of C4d complement protein in CSF in amyotrophic lateral sclerosis, **859**
- Study with the ganglioside GM1 against amyotrophic lateral sclerosis, **519 P**

Amyotrophy, Benign neurogenic amyotrophy in Klinefelter's syndrome, **640**

Anaplastic ependymoma
- Familial anaplastic ependymoma: evidence of loss of chromosome 22 in tumour cells, **1245**
- Loss of chromosome 22 in familial anaplastic ependymoma, **1286 P**

Androgen receptor, Expression of androgen receptor in X-linked spinal and bulbar muscular atrophy and amyotrophic lateral sclerosis: *letter*, **1274**

Aneurysm
- Effect of grade of surgeon on the outcome of aneurysm surgery, **1156 P**
- Effect of treatment of delayed cerebral ischaemia in aneurysmal subarachnoid haemorrhage with prostacyclin derivative (iloprost), **393 P**
- Endothelin and aneurysmal subarachnoid haemorrhage: a study of subarachnoid cisternal cerebrospinal fluid, **66**

Image-guided intracranial aneurysm surgery, **395 P**
Induction of IL-1 in human cerebral cortex following aneurysmal subarachnoid haemorrhage, **393 P**
Intracranial fusiform aneurysms in von Recklinghausen's disease: *letter*, **1279**
Isolated aneurysm of a spinal radicular artery presenting as spinal subarachnoid haemorrhage: *letter*, **767**
Minimally invasive aneurysm surgery: is it safe? **1155 P**

Aneurysmal subarachnoid haemorrhage, Effects of earlier transfer, fluid resuscitation, and surgery on the outcome of patients with aneurysmal subarachnoid haemorrhage, **1155 P**

Angiitis of the CNS, Progressive paraparesis, lymphocytic meningitis, and stroke in a 37-year-old man, **111**

Ankylosing spondylitis, Ankylosing spondylitis associated with myositis: *letter*, **661**

Anosognosia, Relation of anosognosia to frontal lobe dysfunction in Alzheimer's disease, **805**

Anterior horn cell disease, Motor nerve conduction velocities calculated by F tacheodispersion in patients with anterior horn cell disease, **1291 P**

Anterior ischaemic optic neuropathy, Luminance and chromatic contrast sensitivity in anterior ischaemic optic neuropathy, **1293 P**

Anterior spinal hernia, Anterior spinal hernia: an increasingly recognised cause of thoracic cord dysfunction, **1433**

Anti-acetylcholine receptor antibody, Cut off selection in anti-acetylcholine receptor antibody determination: *matters arising*, **1018**

Anti-DNA antibody, Recurrent opticomyelitis associated with anti-DNA antibody, **1124**

Antiarrhythmic drugs, Antiarrhythmic drugs and polyneuropathy, **340**

Antibiotic induced meningitis, Antibiotic induced meningitis, **705**

Anticardiolipin antibodies, Anticardiolipin antibodies and cerebral infarction: *matters arising*, **253**

Anticentriolar autoantibodies, Anticentriolar autoantibodies in children with central nervous system manifestations of *Mycoplasma pneumoniae* infection, **638**

Anticholinergic effect, Anticholinergic effect on event-related potentials: a pilot study with biperiden, **521 P**

Anticonvulsant drugs, Gammaglutamyl transferase isoforms in patients taking anticonvulsant drugs, **517 P**

Antiganglioside antibodies, Two species of antiganglioside antibodies in a patient with a pharyngeal-cervical-brachial variant of Guillain-Barré syndrome, **1121**

Antiglycolipid antibodies, Antiglycolipid antibodies in peripheral neuropathy: fact or fiction? *editorial*, **1303**

Antiparkinsonian drugs, Drug treatment of Parkinson's disease: is "polypharmacy" best?, **401**

Antithrombotic therapy, Antithrombotic therapy in acute ischaemic stroke: an overview of the completed randomised trials: *matters arising*, **254**

Aphasia
Brain glucose utilisation in acquired childhood aphasia associated with a sylvian arachnoid cyst: recovery after shunting as demonstrated by PET, **296**
Functional integrity of the structural unaffected left hemisphere in crossed aphasia: *matters arising*, **664**
PET assessment of brain metabolic recovery in aphasia: *matters arising*, **663**
Primary progressive aphasia: a comparison of CT, MRI and cerebral perfusion SPECT imaging, **251 P**

Apolipoprotein E polymorphism, Apolipoprotein E polymorphism in Japanese patients with Alzheimer's disease or vascular dementia, **1414**

Apomorphine
Akinesia in Parkinson's disease: a PET study demonstrating impaired mesial frontal activation reversed by apomorphine, **509 P**
Apomorphine induced cognitive changes in Parkinson's disease, **998**
IBZM-SPECT predicts response to apomorphine in patients with "de-novo" Parkinsonian syndrome, **520 P**
Motor response to apomorphine and levodopa in asymmetric Parkinson's disease, **562**: *matters arising*, **1444**

Appendicitis, John and James Parkinson on appendicitis, **648**

Apraxia
Conduction apraxia, **1241**
The nature of apraxia in corticobasal degeneration, **455**: *matters arising*,**1548**

Arachnoid cyst, Brain glucose utilisation in acquired childhood aphasia associated with a sylvian arachnoid cyst: recovery after shunting as demonstrated by PET, **296**

Archie Cochrane's challenge, Archie Cochrane's challenge: can periodically updated reviews and *all* randomised controlled trials relevant to neurology and neurosurgery be produced: *editorial*, **529**

Arm function, Enhanced physical therapy for arm function after stroke, **856**

Arm withdrawal, Visually induced central pain and arm withdrawal after right parietal lobe infarction, **850**

Arnold-Chiari malformation, Isolated lingual myoclonus associated with an Arnold-Chiari malformation: *letter*, **660**

Arsenic poisoning, Acute arsenic poisoning: absence of polyneuropathy after treatment with 2,3-dimercaptopropanesulphonate (DMPS), **1133**

Arteriovenous malformation
Radiosurgery for arteriovenous malformations, **394 P**
Spontaneous thrombosis of an arteriovenous malformation, **1410**

Aspergillus sinus disease, Neuro-ophthalmological presentation of non-invasive aspergillus sinus disease in the non-immunocompromised host, **234**

Aspirin, International Stroke Trial to test aspirin and heparin in acute ischaemic stroke, **518 P**

Asterixis, Unilateral asterixis due to a lesion of the ventrolateral thalamus, **116**; correction, **878**

Astrocytomas, Physical and cognitive sequelae of treating low grade astrocytomas with radiotherapy, **393 P**

Ataxia
Clinical and imaging correlations in inherited ataxias, **510 P**
Magnetic resonance imaging in degenerative ataxic disorders, **51**
Measuring ataxia: quantification based on the standard neurological examination, **22**

Ataxic ganglionopathy, Limb ataxia, facial numbness, and Adie's pupils: ataxic ganglionopathy, **1296 P**

Athetoid cerebral palsy, A genetic study of athetoid cerebral palsy, **1286 P**

Athymhormia, Brain glucose utilisation in a patient with "athymhormia" from a family with autosomal dominant parkinsonism and psychic disturbances: *letter*, **1014**

Atypical facial pain, Cerebral responses to pain in patients with atypical facial pain measured by positron emission tomography, **1166**

Audit
Audit of the MEDOS programmable shunt, **1150 P**
Auditing outcome in neurosurgical patients, **1153 P**
Image guided audit of surgery for temporal lobe epilepsy, **1221**

Autism
Genetics of autism, **123 P**
"Theory of mind", **124 P**

Autoimmune diseases, Immunomodulating effects of intravenous immunoglobulin in autoimmune and inflammatory diseases, **S6**

Autoimmune neuropathies, Gangliosides and autoimmune neuropathies: classification and clinical aspects of autoimmune neuropathies, **S26**

Autonomic failure, Pure autonomic failure: a new case with clinical, biochemical, and necropsy data, **745**

Autosomal dominant gene, Evidence for autosomal dominant gene transmission in Gilles de la Tourette syndrome, **122 P**

Axial dystonia, Optimisation of botulinum treatment for cervical and axial dystonias: experience with a Japanese type A toxin, **1535**

Axon flare response, Axon flare response in peripheral neuropathies, **1295 P**

Axonal nerve lesions, Early demonstration of axonal nerve lesions by electroneurography, **513 P**

Axonal polyneuropathy, Chronic idiopathic axonal polyneuropathy: a five year follow up, **1525**

Azathioprine, Cyclosporin A versus azathioprine in multiple sclerosis, **516 P**

B

Baclofen
Intrathecal baclofen pump infection treated by adjunct intrareservoir antibiotic instillation: *letter*, **1146**
Management of severe spasticity with intrathecal baclofen delivered by a manually operated pump, **582**
Spinal intrathecal baclofen suppresses central pain after a stroke: *letter*, **381**
Successful treatment of hereditary spastic paraplegia with intrathecal baclofen continuously administered with an implantable pump, **522 P**

Baculovirus, Direct evidence for limited clonality of antibodies to glutamic acid decarboxylase (GAD) in stiff man syndrome using baculovirus expressed GAD: *letter*, **659**

Basal ganglia, Abnormal movement related potentials in patients with lesions of basal ganglia and anterior thalamus, **100**

Behçet's disease, Neurological involvement in asymptomatic patients with Behçet's disease, **244 P**

Benign intracranial hypertension
Benign intracranial hypertension: a cause of CSF rhinorrhoea, **847**
Comparisons of brain and cerebrospinal fluid volume in patients with benign intracranial hypertension and normal controls, **250 P**
Magnetic resonance imaging of the optic nerve in benign intracranial hypertension, **247 P**

Benzodiazepine receptor density, In vivo demonstration of altered benzodiazepine receptor density in patients with generalised epilepsy, **797**

Beriberi polyneuropathy, Bontius and Tulp on beriberi polyneuropathy, **637**

Bilateral caudate nuclei, Implantation of human fetal ventral mesencephalon to the bilateral caudate nuclei in advanced Parkinson's disease, **387 P**
Bimanual motor performance, Bimanual motor performance in controls and patients: *matters arising*, **126**
Birth injury, Birth injury as a causative factor of syringomyelia with Chiari type I deformity, **373**
Bismuth iodoform paraffin paste, Extradural application of bismuth iodoform paraffin paste causing relapsing bismuth encephalopathy, **990**
Black South Africans, Multiple sclerosis in black South Africans and Zimbabweans, **1064**
Blindness, Long term prognosis of transient lone bilateral blindness in adolescents and young adults, **734**
Bone marrow transplantation, Bone marrow transplantation in juvenile metachromatic leucodystrophy, **509 P**
Bontius, Jacobus, Bontius and Tulp on beriberi polyneuropathy, **637**
Book reviews
Aicardi J. Epilepsy in children. Second edition. International Review of Child Neurology Series, 1994, **1301**
Alexander E, Loeffler JS, Lunsford LD, *editors*. Stereotactic radiosurgery, **877**, 1993, **1158**

Williams AC, *editor*. Motor neurone disease, **1300**
Wyler AR, Hermann BP, *editors*. The surgical management of epilepsy,**877**
Botulinum toxin
Botulinum toxin and sweating: *letter*, **1437**
Botulinum toxin treatment for lower limb extensor spasticity in chronic hemiparetic patients, **1321**
Localised autonomic failure due to botulinum toxin injection: *neurological picture*, **1320**
Optimisation of botulinum treatment for cervical and axial dystonias: experience with a Japanese type A toxin, **1535**
Use of botulinum toxin to treat "striatal" toes: *letter*, **659**
Botulism
Electrophysiological studies in botulism, **1291 P**
Long term morbidity after botulism, **1292 P**
Brachial plexus avulsion, Long term follow up of dorsal root entry zone lesions in brachial plexus avulsion, **737**
Brachial plexus lesion, Obstetric brachial plexus lesion: only a peripheral lesion? **1299 P**

Brain
Brain failure in private and public life, **377**
Brain metabolism after recurrent insulin induced hypoglycaemic episodes: a PET study, **1360**
Brain and spinal cord magnetic resonance imaging in motor neuron disease, **1298 P**
Clinical correlates of postmortem brain changes in schizophrenia: decreased brain weight and length correlate with indices of early impairment, **474**
Effect of white matter disease on functional connections in the aging brain, **1347**
PET assessment of brain metabolic recovery in aphasia: *matters arising*, **663**
Role of open brain biopsy in encephalitis of unknown origin, **507 P**
Serial MRI of the brain in asymptomatic patients infected with HIV: results from the UCMSM/Medical Research Council neurology cohort, **144**
Spontaneous migration of airgun pellet in the brain, **404**
Brain abscess
Amoebic brain abscess: a rare but serious complication of *Entameoba histolitica* infection: *letter*, **240**
Short-course antimicrobial therapy for brain abscess and subdural empyema, **390 P**
Brain glucose utilisation
Brain glucose utilisation in acquired childhood aphasia associated with a sylvian arachnoid cyst: recovery after shunting as demonstrated by PET, **296**
Brain glucose utilisation in a patient with "athymhormia" from a family with autosomal dominant parkinsonism and psychic disturbances: *letter*, **1014**
Brain herniation
Acute intraoperative brain herniation complicating elective neurosurgery: neuroradiological findings, pathophysiological mechanisms and management considerations, **390 P**
Aetiology of herniation of the hindbrain in craniosynostosis, **391 P**
Brain infarction, Isolated hemiataxia after supratentorial brain infarction, **742**
Brain lesions, Role of stereotactic biopsy in multifocal brain lesions, **957**
Brain metastasis
Comparison of the effect on survival of surgical resection of a single brain metastasis from lung *v* non-lung primary tumours, **1152 P**
Surgical treatment of brain metastases of lung cancer, **950**
Brain repair and rehabilitation, Proceedings of the winter meeting of the British Neuropsychiatric Association, London, 21 January 1994, **1017**
Brain tumour
Dynamic oxygen micropolarography of peritumoural white matter: the influence of oedema on tissue oxygenation, **387 P**
Evaluation of eligibility criteria for randomised study of intracerebral tumours presenting with epilepsy (MRC(BR08)) when retrospectively applied to a brain tumour register, **1295 P**
Single photon emission computed tomography in long term survivors of adult brain tumours, **729**
Tenascin in cerebrospinal fluid is a useful biomarker for the diagnosis of brain tumour, **1212**
Brainstem, Multifocal eosinophilic granuloma presenting as progressive brainstem and cerebellar dysfunction, **980**
Bromocriptine
A randomised controlled study comparing bromocriptine to which levodopa was later added, with levodopa alone in previously untreated patients with Parkinson's disease, **1034**
The Sydney Multicentre Study of Parkinson's disease: a randomised, prospective five year study comparing low dose bromocriptine with low dose levodopa-carbidopa, **903**
Bullet injury, Dystonia-parkinsonism syndrome resulting from a bullet injury in the midbrain: *letter*, **658**
Burney, Fanny, Fanny Burney on Samuel Johnson's tics and mannerisms, **380**

C
Calcitonin gene-related peptide, Therapeutic window for intravenous calcitonin gene-related peptide in a rat model of focal cerebral ischaemia, **393 P**
Callosal surgery, Functional aspects of callosal surgery, **1152 P**
Capsaicin, Intravesical capsaicin for treatment of detrusor hyperreflexia, **169, 244 P**
Carbamazepine
A multicentre comparative trial of sodium valproate and carbamazepine in adult onset epilepsy, **682**
Carbamazepine in the treatment of generalised tonic clonic seizures in juvenile myoclonic epilepsy: *letter*, **503**
Survey of monitoring for hepatic or haematological abnormalities during carbamazepine treatment, **1293 P**
Carbohydrate-deficient glycoprotein syndrome, Carbohydrate-deficient glycoprotein syndrome: clinical expression in adults with a new metabolic disease, **552**
Carbon dioxide, Role of impaired CO2 reactivity in the diagnosis of cerebral low flow infarcts, **814**
Carotid amytal testing, Laterality differences in the memory for, and awareness of, hemiplegia during carotid amytal testing, **243 P**
Carotid artery stenosis
Comparison of magnetic resonance angiography
duplex ultrasound, and digital subtraction angiography in assessment of extracranial internal carotid artery stenosis, **1466**
duplex ultrasound and digital subtraction angiography in the assessment of extracranial internal carotid artery stenosis, **388 P**
Carotid bifurction, Observer variation in reporting conventional and magnetic resonance angiograms of the carotid bifurcation, **1299 P**
Carotid endarterectomy
Assessment of cerebral hypoxia using near infrared spectroscopy during carotid endarterectomy, **1154 P**
Colour Doppler assessment of the basal cerebral arteries before carotid endarterectomy, **249 P**
Carotid stenting, Carotid stenting: an alternative to surgery for carotid pseudoaneurysm? **1297 P**
Carotid TIAs, Carotid TIAs: should the anatomical territory be widened? **1291 P**
Carpel tunnel syndrome, *see* Tarsal tunnel syndrome
Cataract, Cataract incidence in myotonic dystrophy, **247 P**
Catatonic syndrome, Epileptic seizures in patients with acute catatonic syndrome, **1419**
Catechol-O-methyltransferase inhibitors, Effect of entacapone, a peripherally acting catechol-O-methyltransferase inhibitor, on the motor response to acute treatment with levodopa in patients with Parkinson's disease, **186**
Catecholamines, Sulphation of catecholamines and phenols is reduced in migraine, **517 P**
Cauda equina claudication, Reversible motor and sensory neurophysiological abnormalities in cauda equina claudication, **1252**
Cauda equina compression, Who is to blame for the morbidity of acute cauda equina compression? **388 P**
Cavernous angioma, Hemichorea reversible after operation in a boy with cavernous angioma in the head of the caudate nucleus: *letter*, **1547**
Central nervous system
Passage of intravenous immunoglobulin G and interaction with the CNS, **S21**
Receptors for gammaglobulin in the central and peripheral nervous system, **S9**
Central pain, Visually induced central pain and arm withdrawal after right parietal lobe infarction, **850**
Cerebellar ataxia
Absence of SCA1 mutation in idiopathic cerebellar ataxia: *letter*, **1439**
Do neurophysiological tests and CT contribute to the diagnosis and prognostic evaluation of late onset cerebellar ataxias? **523 P**
Cerebellar dysfunction, Multifocal eosinophilic granuloma presenting as progressive brainstem and cerebellar dysfunction, **980**
Cerebellar evoked potential, The cerebellar evoked potential in man, **247 P**
Cerebellar infarcts, Infarcts in the territory of the lateral branch of the posterior inferior cerebellar artery, **1073**
Cerebellar lesions
Excitability of the motor cortex to magnetic stimulation in patients with cerebellar lesions, **108**
Saccadic dysmetria and "intact" smooth pursuit eye movements after bilateral deep cerebellar nuclei lesions, **832**
Cerebellar saccadic dysmetria, Visually and memory guided saccades in a case of cerebellar saccadic dysmetria, **1081**
Cerebellopontine angle
Late recurrence of craniopharyngioma in the cerebellopontine angle in a fertile woman: *letter*, **873**
Meningiomas of the cerebellopontine angle, **390 P**
Cerebral activation, Abnormalities of cognitive function and cerebral activation in amyotrophic lateral sclerosis, **248 P**
Cerebral amyloid angiopathy, Cerebral amyloid angiopathy: *neurological picture*, **1457**
Cerebral angiography, Prospective evaluation of cerebral angiography and computed tomography in cerebral haematoma, **1180**
Cerebral arterial autoregulation, The assessment of cerebral arterial autoregulation using induced oscillations in blood pressure, **1155 P**
Cerebral arteriovenous malformations, Transcranial colour imaging and "ultrasound angiography" of cerebral arteriovenous malformations, **1295 P**
Cerebral artery(ies)
Colour Doppler assessment of the basal cerebral arteries before carotid endarterectomy, **249 P**
Mechanisms of cerebral artery thrombosis: a histopathological analysis on eight necropsy cases, **17**
Cerebral biopsies, A review of cerebral biopsies for the diagnosis of dementia, **123 P**
Cerebral blood flow
Chemical autoregulation is the most powerful determinant of cerebral blood flow in head injured children, **511 P**

Continuous assessment of global cerebral blood flow using laser Doppler flowmetry in patients with head injury, **392 P**
Heterogeneity of neocortical cerebral blood flow deficits in dementia of the Alzheimer type: a [^{99m}Tc]-*d,l*-HMPAO SPECT study, **285**
Specificity of changes in cerebral blood flow in patients with frontal lobe dementia, **790**

Cerebral emboli, Detection of asymptomatic circulating cerebral emboli in patients with potential embolic sources, **243 P**

Cerebral haematoma, Prospective evaluation of cerebral angiography and computed tomography in cerebral haematoma, **1180**

Cerebral haemodynamics, Cerebral haemodynamics during Gram negative septic shock: a transcranial Doppler study, **1285 P**

Cerebral hypoxia, Assessment of cerebral hypoxia using near infrared spectroscopy during carotid endarterectomy, **1154 P**

Cerebral infarction, Validation of a clinical classification for subtypes of acute cerebral infarction, **1173**

Cerebral ischaemia
Effect of treatment of delayed cerebral ischaemia in aneurysmal subarachnoid haemorrhage with prostacyclin derivative (iloprost), **393 P**
Expression of interleukin 1β and activation of inflammatory cells during focal cerebral ischaemia in rats, **393 P**
Therapeutic window for intravenous calcitonin gene-related peptide in a rat model of focal cerebral ischaemia, **393 P**

Cerebral lesions, Electroencephalography, **1308**

Cerebral low flow infarcts, Role of impaired CO2 reactivity in the diagnosis of cerebral low flow infarcts, **814**

Cerebral perfusion pressure
Determination of cerebral perfusion pressure thresholds in head injured patients, **1153 P**
Indices of ICP waveform shape correlate with cerebral perfusion pressure but fail to predict efficacy of mannitol therapy for raised ICP, **1153 P**

Cerebral responses, Cerebral responses to pain in patients with atypical facial pain measured by positron emission tomography, **1166**

Cerebral swelling, Computed tomographic evidence of cerebral swelling in benign intracranial hypertension, **1407**

Cerebral tumours, Headache, **134**

Cerebral vasculitis, Acute posterior multifocal pigment epitheliopathy with cerebral vasculitis, **522 P**

Cerebrospinal fluid
Cerebrospinal fluid in the diagnosis of multiple sclerosis, **897**
Cerebrospinal fluid HIV-1 p24 antigen and culture: sensitivity and specificity for AIDS-dementia complex, **784**
Change in the concentrations of amino acids in cisternal CSF of patients with essential tremor: *letter*, **1012**
Comparisons of brain and cerebrospinal fluid volume in patients with benign intracranial hypertension and normal controls, **250 P**
CSF concentration gradients of monoamine metabolites in patients with hydrocephalus, **1026**
Detection and quantification of proviral HIV DNA in CSF, **514 P**
Diagnosis of cytomegalovirus encephalomyeloradiculitis by demonstration of viral antigen in CSF cells, **514 P**
Effect of CSF proteins upon bacterial adhesion to shunt material, **391 P**
Folate deficiency in cerebrospinal fluid associated with a defect in folate binding protein in the central nervous system, **223**
Increased concentration of C4d complement protein in CSF in amyotrophic lateral sclerosis, **859**
United Kingdom CSF Shunt Registry and Shunt Evaluation Unit, **391 P**

Cerebrovascular saccular aneurysmal disease, Lipoprotein (a) concentrations in cerebrovascular saccular aneurysmal disease, **1152 P**

Cervical cord compression, Progressive kyphosis with cord compression in the rheumatoid cervical spine, **1148 P**

Cervical dystonia, Optimisation of botulinum treatment for cervical and axial dystonias: experience with a Japanese type A toxin, **1535**

Cervical osteophytes, Case report: dysphagia and sleep apnoea associated with cervical osteophytes due to diffuse idiopathic skeletal hyperostosis (DISH): *letter*, **384**

Cervical radiculopathy, Cervical radiculopathy and bilateral internuclear ophthalmoplegia caused by temporal arteritis: *letter*, **764**

Cervical soft disc herniation, Diagnostic imaging algorithm for cervical soft disc herniation, **724**

Cervical spine fracture, Wallenberg's syndrome with delayed onset after cervical spine fracture: *letter*, **868**

Cervical spondylotic myelopathy
Management of cervical spondylotic myelopathy and radiculopathy: *editorial*, **257**
Somatosensory evoked potentials after multisegmental upper limb stimulation in diagnosis of cervical spondylotic myelopathy, **301**

Chemiluminescence assay, New non-invasive rapid diagnosis of herpes simplex virus encephalitis by quantitative detection of intrathecal antigen with a chemiluminescence assay, **1112**

Chiari type I deformity, Birth injury as a causative factor of syringomyelia with Chiari type I deformity, **373**

Chorea, Rheumatic chorea and lupus anticoagulant: *letter*, **1545**

Chromosome 17
Dominant migratory neuropathy with chromosome 17 deletion, **1295 P**
Duplication and deletion of chromosome 17p11.2 in demyelinating neuropathies, **242 P**

Chromosome 22
Familial anaplastic ependymoma: evidence of loss of chromosome 22 in tumour cells, **1245**
Loss of chromosome 22 in familial anaplastic ependymoma, **1286 P**

Chronic fatigue syndrome
Chronic fatigue syndrome: a follow up study, **617**
Lactate responses to exercise in chronic fatigue syndrome: *matters arising*, **662**
Serum concentrations of 2',5'-oligoadenylate synthetase, neopterin, and β-glucan in patients with chronic fatigue syndrome and in patients with major depression: *letter*, **1015**
Single fibre EMG studies in chronic fatigue syndrome, **375**: *matters arising*, **1157**

Chronic inflammatory demyelinating polyneuropathy
Electrophysiological sequels of inflammatory demyelination, **S72**
Human immunoglobulin treatment of multifocal motor neuropathy and polyneuropathy associated with monoclonal gammopathy, **S42**
Intravenous immunoglobulin G treatment in patients with chronic inflammatory demyelinating polyneuropathy, **S34**
Intravenous immunoglobulin treatment in patients with chronic inflammatory demyelinating neuropathy not responsive to other treatments, **S39**

Cilastatin, Worsening of myasthenia gravis on treatment with imipenem/cilastatin: *letter*, **383**

Click-evoked vestibular activation, Click-evoked vestibular activation in the Tullio phenomenon, **1538**

Click-evoked vestibulocollic reflex, Myogenic potentials generated by a click-evoked vestibulocollic reflex, **190**

Closed head injury, Neurobehavioural consequences of closed head injury in older adults, **961**

Clozapine, Acute dystonia due to clozapine: *letter*, **119**

Clumsy children, Clumsy children, **124 P**

Cocaine, Cocaine induced chronic tics: *letter*, **1143**

Cognitive changes
Apomorphine induced cognitive changes in Parkinson's disease, **998**
Initial cognitive changes in a patient with familial Alzheimer's disease, **1295 P**
The earliest cognitive change in a person with familial Alzheimer's disease, **967**

Cognitive dysfunction, Screening for cognitive dysfunction in neurodegenerative illness: *letter*, **1282**

Cognitive function
Abnormalities of cognitive function and cerebral activation in amyotrophic lateral sclerosis, **248 P**
Cognitive deficits in progressive supranuclear palsy, Parkinson's disease, and multiple system atrophy in tests sensitive to frontal lobe dysfunction, **79**
Cognitive impairment after stroke: frequency, patterns, and relationship to functional abilities, **202**
Effects of vigabatrin on partial seizures and cognitive function, **1057**

Cognitive impairment
Association between presenting motor symptoms and the risk of cognitive impairment in Parkinson's disease, **1203**
Hippocampal atrophy correlates with severe cognitive impairment in elderly patients with suspected normal pressure hydrocephalus, **590**

Coin-in-the-hand test, The coin-in-the-hand test: a new "bedside" test for the detection of malingering in patients with suspected memory disorder: *letter*, **385**

Complement protein, Increased concentration of C4d complement protein in CSF in amyotrophic lateral sclerosis, **859**

Complex partial seizures, Heautoscopy, epilepsy, and suicide, **838**

Complex partial status epilepticus, Complex partial status epilepticus: a recurrent problem, **835**

Computed tomography
Accurate 3D combination and display of MR, CT, and MRA images for surgical planning, **392 P**
Computed tomographic evidence of cerebral swelling in benign intracranial hypertension, **1407**
Effects of corpus callosum division on medically intractable epilepsy, **394 P**
Image-guided intracranial aneurysm surgery, **395 P**
Prospective evaluation of cerebral angiography and computed tomography in cerebral haematoma, **1180**
Simple ex vivo technique for teaching image guided stereotactic neurosurgical methodology, **394 P**
Stereotactic guided craniotomy for cavernous angiomas presenting with epilepsy, **395 P**

Computerised lumbar infusion test, Computerised lumbar infusion test: multicentre experience in clinical studies in hydrocephalus, **1151 P**

Conduction apraxia, Conduction apraxia, **1241**

Conduction block, A double blind placebo controlled trial of intravenous immunoglobulin and follow up study in motor neuropathy with conduction block and/or GM1 antibodies, **1287 P**
Conjugate eye deviation, Wrong-way eyes, **1298 P**
Constipation, Constipation in Parkinson's disease, **520 P**
Contralateral cerebellar hypometabolism, Contralateral cerebellar hypometabolism: a predictor for stroke outcome?, **174**
Contralateral postural tremor, Benign thalamic cyst presenting with contralateral postural tremor: *letter*, **1139**
Conversion hysteria, Conversion hysteria/malingering: *neurology in literature*, **1004**
Corpus callosum division, Effects of corpus callosum division on medically intractable epilepsy, **394 P**
Corrections, **126**, **528**, **666**, **772**, **877**, **878**, **1302**
Cortical deafness, A case of Creutzfeldt-Jakob disease presenting with cortical deafness: *letter*, **872**
Cortical dementia, A neuropsychological instrument adding to the description of patients with suspected cortical dementia: the Milan overall dementia assessment, **1510**
Cortical dysplasia, Cortical dysplasia and epilepsy, **1289 P**
Cortical oedema, Reversible cortical oedema mimicking cortical dysplasia in mitochondrial disorder: *letter*, **1439**
Cortical perfusion, Continuous monitoring of cortical perfusion by laser Doppler flowmetry inventilated patients with head injury, **1382**
Corticobasal degeneration
Olfactory function in progressive supranuclear palsy and corticobasal degeneration, **251 P**
The nature of apraxia in corticobasal degeneration, **455**: *matters arising*, **1548**
Corticospinal tract, Corticospinal tract in stroke: an investigation with transcranial magnetic stimulation, **514 P**
Cowden disease, Association of Lhermitte-Duclos disease and Cowden disease, **699**
Cramps, A patient with one limb interstitial myositis with localised lipoatrophy presenting with severe cramps and fasciculations, **1541**
Cranial computerised tomographic patterns, Cranial computerised tomographic patterns in different stroke aetiologies, **518 P**
Cranial nerve palsies, Familial recurrent multiple cranial nerve palsies: *letter*, **868**
Craniofacial trauma, Combined single stage repair in craniofacial trauma, **1154 P**
Craniopharyngioma
A 30-year audit of the management of craniopharyngioma in Northern Ireland, **389 P**
Late recurrence of craniopharyngioma in the cerebellopontine angle in a fertile woman: *letter*, **873**
Craniosynostosis
Aetiology of herniation of the hindbrain in craniosynostosis, **391 P**
Recurrent craniosynostosis, **391 P**
Craniotomy, Osteoplastic *v* free flap craniotomy, **1156 P**
Craniovertebral junction compression, Respiratory abnormalities due to craniovertebral junction compression, **1291 P**
Creatine kinase, Does a random creatine kinase level correlate with prognosis in motor neuron disease? **521 P**
Creutzfeldt-Jakob disease
A case of Creutzfeldt-Jakob disease presenting with cortical deafness: *letter*, **872**
Accidental transmission of Creutzfeldt-Jakob disease by dural cadaveric grafts, **1091**
Creutzfeldt-Jakob disease: a collaborative study in Europe, **1285 P**
Focal lesions in Creutzfeldt-Jakob disease, **508 P**
Transmission of Creutzfeldt-Jakob disease to a chimpanzee by electrodes contaminated during neurosurgery, **757**
Crossed cerebral-cerebellar diaschisis, Homolateral ataxia and crural paresis: a crossed cerebral-cerebellar diaschisis, **221**
Crural paresis, Homolateral ataxia and crural paresis: a crossed cerebral-cerebellar diaschisis, **221**
Cerebrospinal fluid rhinorrhoea, Benign intracranial hypertension: a cause of CSF rhinorrhoea, **847**
Cu-Zn superoxide dismutase (SOD1) mutations, Cu-Zn superoxide dismutase (SOD1) mutations and sporadic motor neuron disease in Scotland, **1289 P**
CV 205 502, Benign intracranial hypertension associated with the withdrawal of a non-ergot dopamine agonist, **371**
Cyclosporin
Cyclosporin associated headache, **1258**
Neurological complications due to cyclosporin in kidney transplants, **243 P**
Cyclosporin A, Cyclosporin A versus azathioprine in multiple sclerosis, **516 P**
CYP2D6 locus, Familial Parkinson's disease and polymorphism at the CYP2D6 locus: *letter*, **871**
Cytokines, Guillain-Barr syndrome: studies on circulating cytokines, **512 P**
Cytomegalovirus, Diagnosis of cytomegalovirus encephalomyeloradiculitis by demonstration of viral antigen in CSF cells, **514 P**

D
Daytime sleep, Daytime sleep in myotonic dystrophy is not caused by sleep apnoea, **626**
Debrisoquine hydroxylase, Debrisoquine hydroxylase gene polymorphism in familial Parkinson's disease, **911**
Degenerative disorders, Central motor conduction in degenerative disorders of the motor system, **510 P**
Delirium, Delirium and quantitative EEG: *matters arising*, **768**
Dementia
A neuropsychological instrument adding to the description of patients with suspected cortical dementia: the Milan overall dementia assessment, **1510**
Amyotrophic lateral sclerosis and dementia of Alzheimer type, **519 P**
Clinical and neuropathological criteria for frontotemporal dementia, **416**
Correlation of neuropsychologic scores and cerebral blood flow decrease in patients with dementia of Alzheimer type, **523 P**
Dementia and door-to-door studies in Spain: *matters arising*, **874**
Dementia in two histologically confirmed cases of multiple sclerosis: one case with isolated dementia and one case associated with psychiatric symptoms, **353**
Diffuse neurofibrillary tangles with calcification: a new presenile dementia, **594**
Event-related EEG potentials in old age and in dementia of the Alzheimer type, **523 P**
Familial Pick's disease and dementia in frontal lobe degeneration of non-Alzheimer type are not variants of prion disease: *letter*, **762**
Management of neurological disorders: dementia, **1451**
Review of cerebral biopsies for the diagnosis of dementia, **123 P**
Selective enhancement of executive function by idazoxan in a patient with dementia of the frontal lobe type: *letter*, **120**
Similar EEG features in demented patients and in anticholinergically treated normals suggest a dysfunction of cholinergic EEG mechanisms in dementia, **521 P**
Specificity of changes in cerebral blood flow in patients with frontal lobe dementia, **790**
White matter magnetic resonance hyperintensities in dementia of the Alzheimer type: morphological and regional cerebral blood flow correlates, **1458**
Demyelinating disease (neuropathy)
Abnormal neuronal mitochondria: a cause of reduced N-acetyl containing compounds in demyelinating disease, **1291 P**
Locked-in syndrome in fulminant demyelinating disease: *letter*, **504**
Pure motor demyelinating neuropathy: deterioration after steroid treatment and improvement with intravenous immunoglobulin, **778**
Subgroups of acquired chronic demyelinating neuropathy and their response to immunosuppressant drugs: steroids induce deterioration in a motor subgroup, **511 P**
Demyelinating optic neuritis, A preliminary study to compare functional disturbance of the visual pathway with anatomical deficit as assessed by magnetic resonance imaging in past demyelinating optic neuritis, **1297 P**
Demyelination
Electrophysiological sequels of inflammatory demyelination, **S72**
The impact of the intracerebral antibody response on the clinical course of a virus-induced demyelination in a rat model system, **S18**
Deprenyl, Does selegiline delay progression of Parkinson's disease? A critical re-evaluation of the DATATOP study, **217**
Depressed skull fractures, Depressed skull fractures: conservative or surgical management? **1154 P**
Depression
Depression in secondary epilepsy: relation to lesion laterality, **232**
Effect of age at onset on frequency of depression in Parkinson's disease, **1265**
Hormonal aspects of depression in childhood, **124 P**
Serum concentrations of 2',5'-oligoadenylate synthetase, neopterin, and β-glucan in patients with chronic fatigue syndrome and in patients with major depression: *letter*, **1015**
Dermatomyositis, Indications for intravenous immunoglobulin therapy in inflammatory myopathies, **S65**
Detrusor hyperreflexia, Intravesical capsaicin for treatment of detrusor hyperreflexia, **169**, **244 P**
Dextromethorphan, Drug refractory epilepsy in brain damage: effect of dextromethorphan on EEG in four patients, **333**
Diabetes mellitus, Glycation of peripheral nerve proteins in diabetes mellitus, **1288 P**
Diagnosis, Somatisation in neurological practice: *editorial*, **1161**
Dialysis amyloidosis, Peripheral neuropathy associated with dialysis amyloidosis: *letter*, **1137**
Diaschisis
Homolateral ataxia and crural paresis: a crossed cerebral-cerebellar diaschisis, **221**
Von Monakow and diaschisis, **197**
Diencephalic amnesia, Diencephalic amnesia: possible role of white matter structures: *matters arising*, **1157**
Diffuse idiopathic skeletal hyperostosis, Case report: dysphagia and

sleep apnoea associated with cervical osteophytes due to diffuse idiopathic skeletal hyperostosis (DISH): *letter*, **384**

Digital subtraction angiography, Comparison of magnetic resonance angiography, duplex ultrasound, and digital subtraction angiography in assessment of extracranial internal carotid artery stenosis, **1466**

2,3-Dimercaptopropanesulphonate (DMPS), Acute arsenic poisoning: absence of polyneuropathy after treatment with 2,3-dimercaptopropanesulphonate (DMPS), **1133**

Disseminated encephalomyelitis, Intrathecal treatment with triamcinolone-acetonide of patients with disseminated encephalomyelitis, **522 P**

Distal myopathy, Distal myopathy in a Dutch family: a variant of Welander myopathy? **1298 P**

District general hospital, Survey of neurological disability at a district general hospital, **517 P**

DNA, DNA sequence analysis identifies regions likely to be responsible for neurotropism of HIV-1, **507 P**

Door-to-door studies, Dementia and door-to-door studies in Spain: *matters arising*, **874**

Dopa-^{18}F, The relationship between nigral pathology and isolated tremor studies with PET and ^{18}F-Dopa, **510 P**

Dopa-responsive dystonia, Lessons from a remarkable family with dopa-responsive dystonia, **460**

Dopamine, HMPAO SPECT in Parkinson's disease before and after levodopa: correlation with dopaminergic responsiveness, **180**

Dopaminergic system, PET studies of the presynaptic and postsynaptic dopaminergic system in Tourette's syndrome, **688**

Doppelgänger experience, Heautoscopy, epilepsy, and suicide, **838**

Doppler assessment, Colour Doppler assessment of the basal cerebral arteries before carotid endarterectomy, **249 P**

Doppler flowmetry, Continuous monitoring of cortical perfusion by laser Doppler flowmetry in ventilated patients with head injury, **1382**

Doppler study, Cerebral haemodynamics during Gram negative septic shock: a transcranial Doppler study, **1285 P**

Doppler ultrasound, Doppler ultrasound evidence of embolic source, **1285 P**

Dorsal root entry zone lesions, Long term follow up of dorsal root entry zone lesions in brachial plexus avulsion, **737**

Drug reactions, Neurological adverse drug reactions, **242 P**

Duchenne muscular dystrophy
- Localisation and characterisation of dystrophin in the central nervous system of controls and patients with Duchenne muscular dystrophy, **426**
- Tunisian Duchenne-like autosomal recessive muscular dystrophy: from the clinical description to gene mapping, **248 P**

Duplex ultrasound, Comparison of magnetic resonance angiography, duplex ultrasound, and digital subtraction angiography in assessment of extracranial internal carotid artery stenosis, **1466**

Dural cadaveric grafts, Accidental transmission of Creutzfeldt-Jakob disease by dural cadaveric grafts, **1091**

Dynamometry, Accuracy, reproducibility, and variability of hand-held dynamometry in motor neuron disease, **326**

Dysaesthesiae, Dysaesthesiae induced by physiological and electrical activation of posterior column afferents after stroke, **1077**

Dysembryoplastic neuroepithelial tumour, Dysembryoplastic neuroepithelial tumour: a newly recognised neoplasm with distinctive neuroimaging and pathological features, **243**

Dysembryoplastic neuroepithelial tumours, Dysembryoplastic neuroepithelial tumours, **1152 P**

Dysgraphia, Alphabetical paragraphia in a limited middle cerebral artery stroke, **649**

Dyslexia, Spelling dyslexia: a deficit of the visual word-form, **211**

Dysmetria, Visually and memory guided saccades in a case of cerebellar saccadic dysmetria, **1081**

Dysphagia, Case report: dysphagia and sleep apnoea associated with cervical osteophytes due to diffuse idiopathic skeletal hyperostosis (DISH): *letter*, **384**

Dyspraxia, Clinical, metabolic, and histopathological correlates of orofacial dyspraxia, **516 P**

Dystonia
- Acute dystonia due to clozapine: *letter*, **119**
- Intrafamilial correlation in idiopathic torsion dystonia, **509 P**
- Lessons from a remarkable family with dopa-responsive dystonia, **460**
- Optimisation of botulinum treatment for cervical and axial dystonias: experience with a Japanese type A toxin, **1535**

Dystonia-parkinsonism syndrome, Dystonia-parkinsonism syndrome resulting from a bullet injury in the midbrain: *letter*, **658**

Dystrophin, Localisation and characterisation of dystrophin in the central nervous system of controls and patients with Duchenne muscular dystrophy, **426**

Dystrophinopathy, A unique case of dystrophinopathy: *letter*, **1136**

E

"Ease of falling" syndrome, "Ease of falling" syndrome associated with subdural haematoma: *letter*, **1144**

Economic change, Economic change and health service reform: likely impact on teaching, practice, and research in neurology: *editorial*, **667**

Ecuador, The characteristics of epilepsy in a largely untreated population in rural Ecuador, **320**

Editing, Editorial evolution: *editorial announcement*, **1**

Ejaculation, Spontaneous ejaculation secondary to spinal cord disease: *letter*, **505**

Elastin, Elastin cross-linking in the skin from patients with amyotrophic lateral sclerosis, **94**

Elderly, Iron status, movement disorders, and acute phase response in elderly psychiatric patients, **208**

Electroconvulsive therapy
- Acceptability of electroconvulsive therapy to patients with Parkinson's disease: *letter*, **383**
- Heart rate differences between right and left unilateral electroconvulsive therapy, **97**

Electroencephalography
- Delirium and quantitative EEG: *matters arising*, **768**
- Electroencephalography, **1308**
- Similar EEG features in demented patients and in anticholinergically treated normals suggest a dysfunction of cholinergic EEG mechanisms in dementia, **521 P**

Electromyography, Surface EMG and muscle fibre conduction during attacks of hypokalaemic periodic paralysis, **632**

Electroneurography, Early demonstration of axonal nerve lesions by electroneurography, **513 P**

Electronic screen game seizures, Findings from the national survey of electronic screen game seizures, **1290 P**

Electrophysiological sequels, Electrophysiological sequels of inflammatory demyelination, **S72**

Embolism
- Detection of asymptomatic circulating cerebral emboli in patients with potential embolic sources, **243 P**
- Doppler ultrasound evidence of embolic source, **1285 P**

Emotion-related learning, Emotion-related learning in patients with social and emotional changes associated with frontal lobe damage, **1518**

Encephalitis
- Adult *Toxocara canis* encephalitis, **229**
- Chronic herpes simplex encephalitis in a man with myeloid leukaemia, **515 P**
- Diagnostic and therapeutic strategies in HIV patients with encephalitis, **510 P**
- Intravenous and intrathecal therapy with interferon-beta in aetiologically unclarified encephalitis, **513 P**
- Pseudorabies as clinical manifestation of viral brainstem encephalitis, **515 P**
- Radiological and neurophysiological changes in Japanese encephalitis, **1484**
- Relapse of herpes simplex encephalitis: diagnostic and therpeutic strategies, **516 P**
- Role of open brain biopsy in encephalitis of unknown origin, **507 P**
- Whipple's disease as a rare cause of encephalitis, **514 P**

Encephalomyelitis, Intrathecal treatment with triamcinolone-acetonide of patients with disseminated encephalomyelitis, **522 P**

Encephalomyeloradiculitis, Diagnosis of cytomegalovirus encephalomyeloradiculitis by demonstration of viral antigen in CSF cells, **514 P**

Encephalopathy(ies)
- Extradural application of bismuth iodoform paraffin paste causing relapsing bismuth encephalopathy, **990**
- Localised proton magnetic resonance spectroscopy in metabolic and inflammatory encephalopathies of childhood, **511 P**

Endoscopy, Endoscopic management of pineal tumours, **389 P**

Endothelial cell antibodies, Anti-endothelial cell antibodies in patients with multiple sclerosis, **245 P**

Endothelial cells, Endothelial cells in vasculitis of peripheral nerve and skeletal muscle, **518 P**

Endothelin, Endothelin and aneurysmal subarachnoid haemorrhage: a study of subarachnoid cisternal cerebrospinal fluid, **66**

Energy metabolism, Brain and muscle energy metabolism studied in vivo by ^{31}P-magnetic resonance spectroscopy in NARP syndrome, **1492**

Entacapone, Effect of entacapone, a peripherally acting catechol-O-methyltransferase inhibitor, on the motor response to acute treatment with levodopa in patients with Parkinson's disease, **186**

Entamoeba histolitica, Amoebic brain abscess: a rare but serious complication of *Entameoba histolitica* infection: *letter*, **240**

Eosinophilic granuloma, Multifocal eosinophilic granuloma presenting as progressive brainstem and cerebellar dysfunction, **980**

Ependymoma
- Familial anaplastic ependymoma: evidence of loss of chromosome 22 in tumour cells, **1245**
- Loss of chromosome 22 in familial anaplastic ependymoma, **1286 P**

Epilepsy
- Are brief or recurrent transient global amnesias of epileptic origin?, **622**

Carbamazepine in the treatment of generalised tonic clonic seizures in juvenile myoclonic epilepsy: *letter*, **503**
Changes in focal interictal epileptiform activity during and after the performance of verbal and visuospatial tasks in a patient with intractable partial seizures, **227**
Characteristics of epilepsy in a largely untreated population in rural Ecuador, **320**
Cortical dysplasia and epilepsy, **1289 P**
Depression in secondary epilepsy: relation to lesion laterality, **232**
Drug refractory epilepsy in brain damage: effect of dextromethorphan on EEG in four patients, **333**
Effects of corpus callosum division on medically intractable epilepsy, **394 P**
Electroencephalography, **1308**
Elementary visual hallucinations in migraine and epilepsy, **1371**
Epilepsy, **264**
Epilepsy: neurology in literature, **631**
Epileptic seizures in patients with acute catatonic syndrome, **1419**
Evaluation of eligibility criteria for randomised study of intracerebral tumours presenting with epilepsy (MRC(BR08)) when retrospectively applied to a brain tumour register, **1295 P**
Everyday spatial memory and orientation after surgery for temporal lobe epilepsy, **1152 P**
Factors predictive of a good response to temporal neocorticectomy in temporal lobe epilepsy, **508 P**
Gangliogliomas: clinical, radiological, and histopathological findings in 51 patients, **1497**
Heautoscopy, epilepsy, and suicide, **838**
Ictal language shift in a polyglot: *letter*, **121**
Image guided audit of surgery for temporal lobe epilepsy, **1221**
Immunoglobulin treatment in human and experimental epilepsy, **S61**
In vivo demonstration of altered benzodiazepine receptor density in patients with generalised epilepsy, **797**
Intracerebral propagation of interictal activity in partial epilepsy: implications for source localisation, **435**
Is Wada testing helpful in lateralising seizure focus before temporal lobe surgery for epilepsy? **1151 P**
Ischaemic optic neuropathy, transverse myelitis, and epilepsy in an anti-phospholipid positive patient with systemic lupus erythematosus: *letter*, **1142**
Life threatening epilepsy in a child: *letter*, **1440**
Multicentre comparative trial of sodium valproate and carbamazepine in adult onset epilepsy, **682**
Narcolepsy-like sleep episodes as the only manifestation of epilepsy, **516 P**
New developments in the study of childhood epilepsy, **124 P**
Notification rates in drivers with epilepsy, **244 P**
Outcome following resective surgery for temporal lobe epilepsy, **508 P**
Outcome of surgery for chronic temporal lobe epilepsy: anterior temporal lobectomy *v* selective amygdalohippocampectomy, **1151 P**
Psychiatric morbidity after surgery for epilepsy: short term follow up of patients undergoing amygdalohippocampectomy, **1375**
Psychiatric sequelae of surgical treatment for epilepsy, **122 P**
Stereotactic guided craniotomy for cavernous angiomas presenting with epilepsy, **395 P**
Subependymal heterotopia: a distinct neuronal migration disorder associated with epilepsy, **1195**
Transient epileptic amnesia differentiated from psychogenic "fugue": neuropsychological, EEG, and PET findings, **1002**
Utility of stereoelectroencephalography in preoperative assessment of temporal lobe epilepsy, **58**
Vigabatrin and lamotrigine in refractory epilepsy, **921**
Epileptic amnesia, Transient epileptic amnesia - a clinical update and a reformulation: *matters arising*, **1549**
Epstein-Barr virus
Absence of Epstein-Barr virus RNA in multiple sclerosis as assessed by in situ hybridisation, **975**
Detection of EBNA2-mRNA in primary central nervous system lymphomas in patients with AIDS, **509 P**
Essential tremor
Change in the concentrations of amino acids in cisternal CSF of patients with essential tremor: *letter*, **1012**
Essential tremor: *neurology in literature*, **1478**
Event-related potentials, Anticholinergic effect on event-related potentials: a pilot study with biperiden, **521 P**
Excitotoxic amino acid neurotransmitters, Excitotoxic amino acid neurotransmitters are increased in human cerebrospinal fluid after subarachnoid haemorrhage: *letter*, **1442**
Exostosis, Hereditary multiple exostosis with spinal cord compression in a 13-year-old boy: *letter*, **238**
Experimental autoimmune encephalomyelitis, Intravenous gammaglobulin treatment in multiple sclerosis and experimental autoimmune encephalomyelitis: delineation of usage and mode of action, **S46**
Extrapyramidal symptoms
Clinical and magnetic resonance imaging study of extrapyramidal symptoms in multiple system atrophy, **1528**
Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**
Extrapyramidalism, Extrapyramidalism in Alzheimer's disease, **1503**
Eye movements, Saccadic dysmetria and "intact" smooth pursuit eye movements after bilateral deep cerebellar nuclei lesions, **832**
Eyes, Wrong-way eyes, **1298 P**

F
[^{18}F]-2-fluoro-2-deoxy-D-glucose, Cerebral glucose metabolism in neurofibromatosis type 1 assessed with [^{18}F]-2-fluoro-2-deoxy-D-glucose and PET, **1479**
^{18}F-dopa PET
Differential diagnosis of Parkinson's disease, multiple system atrophy, and Steele-Richardson-Olszewski syndrome: discriminant analysis of striatal ^{18}F-dopa PET data, **278**
Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**
F tacheodispersion, Motor nerve conduction velocities calculated by F tacheodispersion in patients with anterior horn cell disease, **1291 P**
Facial muscles, Separation of voluntary and limbic activation of facial and respiratory muscles in ventral pontine infarction: *letter*, **1281**
Facial nerve injury, Intracranial repair of the facial nerve with freeze-thawed skeletal muscle graft, **1149 P**
Facial numbness, Limb ataxia, facial numbness, and Adie's pupils: ataxic ganglionopathy, **1296 P**
Facioscapulohumeral muscular dystrophy, Early onset facioscapulohumeral muscular dystrophy, **1287 P**
Fainting, Vasovagal attacks: *neurology in literature*, **789**
Fasciculations, A patient with one limb interstitial myositis with localised lipoatrophy presenting with severe cramps and fasciculations, **1541**
Fatigue, Fatigue and physical disability in multiple sclerosis, **245 P**
Fatty acids, X-linked adrenoleukodystrophy with non-diagnostic plasma very long chain fatty acids, **759**
Fax, Emergency medical image transmission by fax, **1148 P**
Fetal ventral mesencephalon, Implantation of human fetal ventral mesencephalon to the bilateral caudate nuclei in advanced Parkinson's disease, **387 P**
Fibrinolysis, Meningioma-induced fibrinolysis, **388 P**
Fibromyalgia, Muscle strength, voluntary activation, twitch properties, and endurance in patients with fibromyalgia, **1106**
Fisher's syndrome, Suppression of motor cortical excitability by electrical stimulation over the cerebellum in Fisher's syndrome: *letter*, **1275**
Focal brain lesions, Unexpected focal brain lesions in schizophrenics and their relationship to abnormal involuntary movements, **123 P**
Focal cerebral ischaemia
Expression of interleukin 1β and activation of inflammatory cells during focal cerebral ischaemia in rats, **393 P**
Therapeutic window for intravenous calcitonin gene-related peptide in a rat model of focal cerebral ischaemia, **393 P**
Focal interictal epileptiform activity, Changes in focal interictal epileptiform activity during and after the performance of verbal and visuospatial tasks in a patient with intractable partial seizures, **227**
Focal necrotising herpes simplex encephalitis, Focal necrotising herpes simplex encephalitis, **1115**
Folate deficiency, Folate deficiency in cerebrospinal fluid associated with a defect in folate binding protein in the central nervous system, **223**
Food intolerance, Food intolerance in hyperactivity, **124 P**
Foramen magnum tumours, Lateral approaches to foramen magnum tumours, **390 P**
Forced vital capacity, Acute neuromuscular respiratory paralysis: *letter*, **762**
Fractal dimension, Fractal ways of looking at the brain, **123 P**
Free flap craniotomy, Osteoplastic *v* free flap craniotomy, **1156 P**
Freeze-thawed skeletal muscle graft, Intracranial repair of the facial nerve with freeze-thawed skeletal muscle graft, **1149 P**
Friedreich's disease, Late onset Friedreich's disease: clinical features and mapping of mutation to the FRDA locus, **977**
Frontal executive function, Semantic memory and frontal executive function during transient global amnesia, **605**
Frontal lesions, Preserved leftward movement in left unilateral spatial neglet due to frontal lesions, **1085**
Frontal lobe
Cognitive deficits in progressive supranuclear palsy, Parkinson's disease, and multiple system atrophy in tests sensitive to frontal lobe dysfunction, **79**
Emotion-related learning in patients with social and emotional changes associated with frontal lobe damage, **1518**
Familial Pick's disease and dementia in frontal lobe degeneration of non-Alzheimer type are not variants of prion disease: *letter*, **762**
Relation of anosognosia to frontal lobe dysfunction in Alzheimer's disease, **805**
Selective enhancement of executive function by idazoxan in a patient with dementia of the frontal lobe type: *letter*, **120**

Unilateral spatial neglect due to right frontal lobe haematoma, **89**
Frontal lobe dementia, Specificity of changes in cerebral blood flow in patients with frontal lobe dementia, **790**
Frontotemporal dementia, Clinical and neuropathological criteria for frontotemporal dementia, **416**
"Fugue", psychogenic, Transient epileptic amnesia differentiated from psychogenic "fugue": neuropsychological, EEG, and PET findings, **1002**
Functional imaging, Functional imaging in Gilles de la Tourette syndrome, using HMPAO-SPECT, **122 P**

G
Gadolinium, Serial monthly gadolinium enhanced magnetic resonance imaging in the monitoring of treatment of multiple sclerosis: the anti-CD4 trial design, **1295 P**
Gait hypokinesia, Ability to modulate walking cadence remains intact in Parkinson's disease, **1532**
Gammaglobulin, On gammaglobulin treatment in neurology: fundamentals and clinical applications, supplement, **S1-S75**
Gammaglutamyl transferase isoforms, Gammaglutamyl transferase isoforms in patients taking anticonvulsant drugs, **517 P**
Ganglioglomas, Ganglioglomas: clinical, radiological, and histopathological findings in 51 patients, **1497**
Ganglioside GM1, Study with the ganglioside GM1 against amyotrophic lateral sclerosis, **519 P**
Gangliosides
Antibodies against gangliosides in patients with systemic lupus erythematosus and neurological involvement, **242 P**
Antibodies to ganglioside LM1 in Guillain-Barré syndrome, **247 P**
Chronic progressive motor polyneuropathy after ganglioside treatment: *letter*, **238**
Gangliosides and autoimmune neuropathies: classification and clinical aspects of autoimmune neuropathies, **S26**
Serum ganglioside antibodies in multiple sclerosis, **245 P**
Gene mapping, Gene mapping and mutation detection in hereditary motor and sensory neuropathy type I, **519 P**
Genetics
Clinical genetics in neurological disease, **7**
The genetics of the narcoleptic syndrome, **122 P**
Germ cell neoplasm, Unusual presentation of a germ cell neoplasm: *letter*, **1278**
Giant axonal neuropathy, Sulphur metabolism in giant axonal neuropathy, **249 P**
Giant cell arteritis, Sumatriptan and giant cell arteritis: *letter*, **660**
Gilles de la Tourette syndrome
Evidence for autosomal dominant gene transmission in Gilles de la Tourette syndrome, **122 P**
Fanny Burney on Samuel Johnson's tics and mannerisms, **380**
Functional imaging in Gilles de la Tourette syndrome, using HMPAO-SPECT, **122 P**
Obsessional disorder in Gilles de la Tourette syndrome, **123 P**
Glioblastoma multiforme, Isolation and characterisation of a human cell line of the oligodendrocyte type 2 astrocyte lineage derived from a glioblastoma multiforme, **1293 P**
Glioma, Adverse effectsof radiotherapy in long term low grade glioma survivors, **1286 P**
***β*-Glucan**, Serum concentrations of 2′,5′-oligoadenylate synthetase, neopterin, and *β*-glucan in patients with chronic fatigue syndrome and in patients with major depression: *letter*, **1015**
Glucose
Brain glucose utilisation in acquired childhood aphasia associated with a sylvian arachnoid cyst: recovery after shunting as demonstrated by PET, **296**
Brain glucose utilisation in a patient with "athymhormia" from a family with autosomal dominant parkinsonism and psychic disturbances: *letter*, **1014**
Cerebral glucose metabolism in neurofibromatosis type 1 assessed with [^{18}F]-2-fluoro-2-deoxy-D-glucose and PET, **1479**
Glutamic acid decarboxylase, Direct evidence for limited clonality of antibodies to glutamic acid decarboxylase (GAD) in stiff man syndrome using baculovirus expressed GAD: *letter*, **659**
Glutathione peroxidase, Raised spinal concentrations of selenium and iron and glutathione peroxidase activity in sporadic motor neuron disease, **1289 P**
Glycerol trioleate/erucic supplementation, High dose immunoglobulin IV treatment in adrenoleukodystrophy, **S58**; discussion, **S60**
Glycoconjugates, Antibodies to glycoconjugates in peripheral neuropathy, **1287 P**
Glycolipids, Antiglycolipid antibodies in peripheral neuropathy: fact or fiction? *editorial*, **1303**
Glycoprotein, Carbohydrate-deficient glycoprotein syndrome: clinical expression in adults with a new metabolic disease, **552**
GM1 antibodies, A double blind placebo controlled trial of intravenous immunoglobulin and follow up study in motor neuropathy with conduction block and/or GM1 antibodies, **1287 P**
Goitre, Kennedy's syndrome with arterial hypertension and goitre, **516 P**
Granuloma, Progressive paraparesis, lymphocytic meningitis, and stroke in a 37-year-old man, **111**
Growth factors, Growth factors: potential therapeutic applications in neurology: *editorial*, **1445**
Guillain-Barré syndrome
Antibodies to ganglioside LM1 in Guillain-Barré syndrome, **247 P**
Axonal form of Guillain-Barré syndrome: evidence for macrophage-associated demyelination, **242 P**
Guillain-Barré syndrome: plasma exchange or immunoglobulins intravenously, **S29**
Guillain-Barré syndrome: studies on circulating cytokines, **512 P**
Hyperkalaemia mimicking acute Guillain-Barré syndrome: *letter*, **1436**
T cell receptor V, usage in Guillain-Barré syndrome, **248 P**
Treatment of the Guillain-Barré syndrome with high dose immune globulins combined with methylprednisolone, **1287 P**
Tumour necrosis factor-*α* and other cytokines in Guillain-Barré syndrome, **1118**
Two species of antiganglioside antibodies in a patient with a pharyngeal-cervical-brachial variant of Guillain-Barré syndrome, **1121**
Guillain-Barré syndrome variant, Familial inflammatory demyelinating polyneuropathy: a Guillain-Barré syndrome variant without autoimmune predilection: *letter*, **1008**
Guy's prognostic score, Predicting stroke outcome: Guy's prognostic score in practice, **932**

H
H-reflex, The effect of cycling of H-reflex amplitude and presynaptic inhibition in Parkinson's disease, **1296 P**
Haemorheological deficits, Haemorheological deficits are a secondary risk factor for stroke, **518 P**
Haemorrhage
Haemorrhage associated with silastic dural substitute, **646**
Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**
Spectrum of primary intracerebral haemorrhage in Perth, Western Australia, 1989-90: incidence and outcome, **936**
Hallucinations
Elementary visual hallucinations in migraine and epilepsy, **1371**
Musical hallucinations, **1297 P**
Visual hallucinations with written words in a case of left parietotemporal lesion, **1268**
Handicap, Handicap one year after a stroke: validity of a new scale, **825**
Head injury
Antimicrobial prophylaxis in neurosurgery and following head injury, **391 P**
β-amyloid protein deposition in the brain after severe head injury: implications for the pathogenesis of Alzheimer's disease, **419**
Chemical autoregulation is the most powerful determinant of cerebral blood flow in head injured children, **511 P**
Clinicopathological observations in 100 consecutive fatal head injuries admitted to a neurosurgical unit, **1154 P**
Continuous assessment of global cerebral blood flow using laser Doppler flowmetry in patients with head injury, **392 P**
Continuous monitoring of cortical perfusion by laser Doppler flowmetry inventilated patients with head injury, **1382**
Delayed symptoms and death after minor head trauma with occult vertebral artery injury, **500**
Determination of cerebral perfusion pressure thresholds in head injured patients, **1153 P**
Does outcome after head injury correlate with the intracranial pressure pulse waveform? **392 P**
Effect of sudden episodic intracranial hypertension on the electroencephalogram in a child with head injury: *letter*, **1277**
Initial studies characterising a clinically relevant rodent model of diffuse head injury, **392 P**
Jugular venous desaturation and outcome after head injury, **717**
Minor head injury: pathophysiological or iatrogenic sequelae?, **709**
Post-traumatic amnesia: still a valuable yardstick, **198**
The early management and use of the injury severity score in severe head injury, **1154 P**
Visual information processing after severe closed head injury: effects of forward and backward masking, **818**
Headache
Cyclosporin associated headache, **1258**
Experience in the diagnosis of headaches that start in elderly people, **1255**
Headache, **134**
Nicolaus Petreus Tulpius (1593-1674) on headaches, **625**
Third occipital nerve headache: a prevalence study, **1187**
Vertebrobasilar dolichoectasia and exertional headache: *letter*, **1544**
Health service reform, Economic change and health service reform: likely impact on teaching, practice, and research in neurology: *editorial*, **667**
Heart rate, Heart rate differences between right and left unilateral electroconvulsive therapy, **97**
Heart transplantation, Neurological complications following heart transplantation, **508 P**

Heautoscopy, Heautoscopy, epilepsy, and suicide, **838**
Hemiataxia, Isolated hemiataxia after supratentorial brain infarction, **742**
Hemiballism
Hemiballism: report of 25 cases, **945**
Persistent hemiballism in Parkinson's disease: *letter*, **1013**
Hemiballism-hemichorea, Hemiballism-hemichorea and non-ketotic hyperglycaemia, **748**
Hemichorea, Hemichorea reversible after operation in a boy with cavernous angioma in the head of the caudate nucleus: *letter*, **1547**
Hemifacial spasm
Anatomy of neurovascular compression of the lower cranial nerves, **1151 P**
Hemifacial spasm, **284**
Hemimasticatory spasm, Pathophysiology of hemimasticatory spasm, **43**
Hemimicropsia, Selective deficit of visual size perception: two cases of hemimicropsia, **73**
Hemiparetic patients, Botulinum toxin treatment for lower limb extensor spasticity in chronic hemiparetic patients, **1321**
Hemiparkinsonism, Peduncular hallucinosis and right hemiparkinsonism caused by left mesencephalic infarction: *letter*, **870**
Hemiplegia
Laterality differences in the memory for, and awareness of, hemiplegia during carotid amytal testing, **243 P**
Mills' syndrome: ascending (or descending) progressive hemiplegia: a hemiplegic form of primary lateral sclerosis? *letter*, **1280**
Transcallosal inhibition of the motor cortex in patients with hemiplegia of vascular origin, **514 P**
Heparin, International Stroke Trial to test aspirin and heparin in acute ischaemic stroke, **518 P**
Hereditary motor and sensor neuropathy, Duplication and deletion of chromosome 17p11.2 in demyelinating neuropathies, **242 P**
Hereditary motor and sensory neuropathy
Gene mapping and mutation detection in hereditary motor and sensory neuropathy type I, **519 P**
Myotonic pupils and hereditary motor and sensory neuropathy, **519 P**
Peroneal muscular atrophy with pyramidal tract features (hereditary motor and sensory neuropathy type V): a clinical, neurophysiological, and pathological study of a large kindred, **1343**
The course of hereditary motor and sensory neuropathy type I, **1288 P**
Hereditary neuropathy, DNA analysis in Finnish patients with hereditary neuropathy with liability to pressure palsies (HNPP), **1260**
Hereditary spastic paraplegia, Successful treatment of hereditary spastic paraplegia with intrathecal baclofen continuously administered with an implantable pump, **522 P**
Herniation
Acute intraoperative brain herniation complicating elective neurosurgery: neuroradiological findings, pathophysiological mechanisms and management considerations, **390 P**
Aetiology of herniation of the hindbrain in craniosynostosis, **391 P**
Herpes simplex encephalitis
Chronic herpes simplex encephalitis in a man with myeloid leukaemia, **515 P**
Focal necrotising herpes simplex encephalitis, **1115**
Herpes simplex encephalitis: long term magnetic resonance imaging and neuropsychological profile, **1334**
New non-invasive rapid diagnosis of herpes simplex virus encephalitis by quantitative detection of intrathecal antigen with a chemiluminescence assay, **1112**
Relapse of herpes simplex encephalitis: diagnostic and therpeutic strategies, **516 P**
Herpes simplex myelitis, Retrospective diagnosis of fatal herpes simplex myelitis by immunocytochemisty and polymerase chain reaction: *letter*, **1272**
Herpes simplex virus type 2, Herpes simplex virus type 2 ascending myeloradiculitis: MRI findings and rapid diagnosis by the polymerase chain method: *letter*, **869**
Heterochromia iridis, A note on heterochromia iridis, **231**
Hippocampal atrophy
Hippocampal atrophy correlates with severe cognitive impairment in elderly patients with suspected normal pressure hydrocephalus, **590**
Visual rating of hippocampal atrophy: correlation with volumetry: *letter*, **1015**
Hippocampus, Detection of hippocampal pathology by T2 relaxometry, **246 P**
HIV
Acute diffuse leukoencephalitis in HIV-1 infection, **105**
Detection and quantification of proviral HIV DNA in CSF, **514 P**
Diagnostic and therapeutic strategies in HIV patients with encephalitis, **510 P**
Long term neurophysiological monitoring in HIV infection: the Middlesex MRC Cohort study, **522 P**
Longitudinal study of magnetic resonance imaging in HIV infection, **515 P**
Peripheral neuropathy in HIV infection, small and large fibre involvement, **250 P**
Serial MRI of the brain in asymptomatic patients infected with HIV: results from the UCMSM/Medical Research Council neurology cohort, **144**
HIV-1, DNA sequence analysis identifies regions likely to be responsible for neurotropism of HIV-1, **507 P**
HIV-1 p24 antigen, Cerebrospinal fluid HIV-1 p24 antigen and culture: sensitivity and specificity for AIDS-dementia complex, **784**
HLA DR and DQ alleles, No association of multiple sclerosis with HLA DR and DQ alleles in Shanghai Chinese, **1294 P**
Homolateral ataxia, Homolateral ataxia and crural paresis: a crossed cerebral-cerebellar diaschisis, **221**
Homonculus, Penfield's homunculus: *matters arising*, **525**
Horizontal saccades, Analysis of horizontal saccades in multiple sclerosis is a useful clinical tool, **514 P**
Hormones, Hormonal aspects of depression in childhood, **124 P**
Horologagnosia, Horologagnosia: an impairment of the ability to tell the time: *letter*, **384**
HTLV-1, Peripheral neuropathy associated with HTLV-1 infection, **520 P**
Huntington's disease
Initial letter and semantic category fluency in Alzheimer's disease, Huntington's disease, and progressive supranuclear palsy, **1389**
Reliability of clinical diagnosis of Huntington's disease: *letter*, **1277**
Hutchinson, Sir Jonathan, Sir Johathan Hutchinson (1828-1913) and an early description of temporal arteritis, **216**
Hydrocephalus
CSF concentration gradients of monoamine metabolites in patients with hydrocephalus, **1026**
Effectiveness of shunting in patients with normal pressure hydrocephalus predicted by temporary, controlled-resistance, continuous lumbar drainage, **1430**
Intracranial pressure monitoring in the management of hydrocephalus and shunt related problems, **1150P**
Is neurosurgical follow up on hydrocephalic children valuable? **1151 P**
Long term prognosis for children with treated hydrocephalus, **1150P**
Three decades of normal pressure hydrocephalus: are we wiser now? *editorial*, **1021**
Hyperactivity, Food intolerance in hyperactivity, **124 P**
Hyperekplexia, Hyperekplexia: clinical and genetic relationships, **1290 P**
Hyperglycaemia, Hemiballism-hemichorea and non-ketotic hyperglycaemia, **748**
Hyperkalaemia, Hyperkalaemia mimicking acute Guillain-Barré syndrome: *letter*, **1436**
Hypertension
Benign intracranial hypertension: a cause of CSF rhinorrhoea, **847**
Kennedy's syndrome with arterial hypertension and goitre, **516 P**
Hypoglycaemia, Brain metabolism after recurrent insulin induced hypoglycaemic episodes: a PET study, **1360**
Hypokalaemic periodic paralysis, Surface EMG and muscle fibre conduction during attacks of hypokalaemic periodic paralysis, **632**
Hypoventilation, Papilloedema and visual failure in a patient with nocturnal hypoventilation: *letter*, **1546**
Hysteria, Conversion hysteria/malingering: *neurology in literature*, **1004**

I
^{123}I-iodobenzamide single photon emission computed tomography, Multiple system atrophy: natural history, MRI morphology, and dopamine receptor imaging with ^{123}IBZM-SPECT, **1047**
Ictal language, Ictal language shift in a polyglot: *letter*, **121**
Idazoxan, Selective enhancement of executive function by idazoxan in a patient with dementia of the frontal lobe type: *letter*, **120**
Ideomotor praxis, Role of the pulvinar in ideomotor praxis: *letter*, **1282**
Iloprost, Effect of treatment of delayed cerebral ischaemia in aneurysmal subarachnoid haemorrhage with prostacyclin derivative (iloprost), **393 P**
Image guided audit, Image guided audit of surgery for temporal lobe epilepsy, **1221**
Image transmission, Emergency medical image transmission by fax, **1148 P**
Imipenem, Worsening of myasthenia gravis on treatment with imipenem/cilastatin: *letter*, **383**
Immobilisation, Effect of immobilisation on position and movement sense of the knee: *letter*, **382**
Immunoadsorption therapy, Immunoadsorption therapy for myasthenia gravis, **578**
Immunocytochemistry, Retrospective diagnosis of fatal herpes simplex myelitis by immunocytochemisty and polymerase chain reaction: *letter*, **1272**
Immunodeficiency, Management of meningoencephalitis in non-HIV immunodeficiency, **513 P**
Immunoglobulin
A double blind placebo controlled trial of intravenous immunoglobulin and follow up study in motor neuropathy with conduction block and/or GM1 antibodies, **1287 P**

A randomised double blind controlled study of intravenous immunoglobulin in the Lambert-Eaton myasthenic syndrome, **1287 P**
An "n of 1" trial of intravenous immunoglobulin treatment for chronic inflammatory demyelinating polyneuropathy: *letter*, **1137**
Clinical evaluation of plasma exchange and high dose intravenous immunoglobulin in a patient with Isaac's syndrome, **840**
Pure motor demyelinating neuropathy: deterioration after steroid treatment and improvement with intravenous immunoglobulin, **778**
Treatment of the Guillain-Barré syndrome with high dose immune globulins combined with methylprednisolone, **1287 P**

Immunoglobulin G
On gammaglobulin treatment in neurology: fundamentals and clinical applications, supplement, **S1-S75**
Receptors for gammaglobulin in the central and peripheral nervous system, **S9**

Immunosuppressant drugs, Subgroups of acquired chronic demyelinating neuropathy and their response to immunosuppressant drugs: steroids induce deterioration in a motor subgroup, **511 P**

Immunotherapy, Immunotherapy for multiple sclerosis: *editorial*, **3**

Impotence, Intracavernosal papaverine injections for men with multiple sclerosis and erectile difficulties, **511 P**

In situ hybridisation, Absence of Epstein-Barr virus RNA in multiple sclerosis as assessed by in situ hybridisation, **975**

Indoramin, Indoramin for lower urinary tract dysfunction in multiple sclerosis, **1296 P**

Infarction
Anticardiolipin antibodies and cerebral infarction: *matters arising*, **253**
Hemispheric brain infarctions and clinical outcome in early and delayed middle cerebral artery recanalisation, **508 P**
Infarction of the spinal cord, **250 P**
Mechanisms of cerebral artery thrombosis: a histopathological analysis on eight necropsy cases, **17**
Peduncular hallucinosis and right hemiparkinsonism caused by left mesencephalic infarction: *letter*, **870**
Pure amnesia after unilateral left polar thalamic infarct: topographic and sequential neuropsychological and metabolic (PET) correlations, **27**: *matters arising*, **1157**
Separation of voluntary and limbic activation of facial and respiratory muscles in ventral pontine infarction: *letter*, **1281**
Visually induced central pain and arm withdrawal after right parietal lobe infarction, **850**

Infarcts
Anomia for proper names after left thalamic infarct: *letter*, **1283**
Infarcts in the territory of the lateral branch of the posterior inferior cerebellar artery, **1073**
Role of impaired CO2 reactivity in the diagnosis of cerebral low flow infarcts, **814**

Inflammatory demyelinating polyneuropathy
An "n of 1" trial of intravenous immunoglobulin treatment for chronic inflammatory demyelinating polyneuropathy: *letter*, **1137**
Familial inflammatory demyelinating polyneuropathy: a Guillain-Barré syndrome variant without autoimmune predilection: *letter*, **1008**

Inflammatory demyelination, Electrophysiological sequels of inflammatory demyelination, **S72**

Inflammatory diseases, Immunomodulating effects of intravenous immunoglobulin in autoimmune and inflammatory diseases, **S6**

Inflammatory myopathies, Indications for intravenous immunoglobulin therapy in inflammatory myopathies, **S65**

Inherited neurological disorders, Single gene neurological disorders in South Wales, **518 P**

Injury severity score, The early management and use of the injury severity score in severe head injury, **1154 P**

Inpatients, Liaison neurology: influence of obtaining a neurological opinion on the diagnosis and management of hospital inpatients, **1292 P**

Insensitivity to pain, Congenital insensitivity to pain: a 20 year follow up, **973**

Insulin, Brain metabolism after recurrent insulin induced hypoglycaemic episodes: a PET study, **1360**

Insulinoma, Peripheral neuropathy in association with insulinoma: clinical features and neuropathology of a new case: *letter*, **1009**

Interferon-beta, Intravenous and intrathecal therapy with interferon-beta in aetiologically unclarified encephalitis, **513 P**

Interictal activity, Intracerebral propagation of interictal activity in partial epilepsy: implications for source localisation, **435**

Interleukin-2, Soluble interleukin-2 receptor levels in serum of patients with demyelinating polyneuropathy associated with monoclonal gammopathy: *matters arising*, **126**

Internal carotid artery dissection, Incidence of internal carotid artery dissection in the community of Dijon: *letter*, **1443**

Internuclear ophthalmoplegia, Cervical radiculopathy and bilateral internuclear ophthalmoplegia caused by temporal arteritis: *letter*, **764**

Interstitial myositis, A patient with one limb interstitial myositis with localised lipoatrophy presenting with severe cramps and fasciculations, **1541**

Intracerebral antibody response, The impact of the intracerebral antibody response on the clinical course of a virus-induced demyelination in a rat model system, **S18**

Intracerebral haemorrhage, Spectrum of primary intracerebral haemorrhage in Perth, Western Australia, 1989-90: incidence and outcome, **936**

Intracerebral tumours, Evaluation of eligibility criteria for randomised study of intracerebral tumours presenting with epilepsy (MRC(BR08)) when retrospectively applied to a brain tumour register, **1295 P**

Intracranial chordoma, Intracranial chordoma with a novel symptom: *letter*, **503**

Intracranial fusiform aneurysms, Intracranial fusiform aneurysms in von Recklinghausen's disease: *letter*, **1279**

Intracranial hypertension
Benign intracranial hypertension associated with the withdrawal of a non-ergot dopamine agonist, **371**
Computed tomographic evidence of cerebral swelling in benign intracranial hypertension, **1407**
Congenital protein C deficiency and superior sagittal sinus thrombosis causing isolated intracranial hypertension, **655**
Effect of sudden episodic intracranial hypertension on the electroencephalogram in a child with head injury: *letter*, **1277**
Isolated intracranial hypertension presenting with trigeminal neuropathy: *letter*, **381**

Intracranial pressure
Comparisons of brain and cerebrospinal fluid volume in patients with benign intracranial hypertension and normal controls, **250 P**
Does outcome after head injury correlate with the intracranial pressure pulse waveform? **392 P**
Indices of ICP waveform shape correlate with cerebral perfusion pressure but fail to predict efficacy of mannitol therapy for raised ICP, **1153 P**
Intracranial pressure monitoring in the management of hydrocephalus and shunt related problems, **1150P**
Optic nerve sheath decompression for the treatment of visual failure in chronic raised intracranial pressure, **1426**

Intracranial procedures, Use of neurosurgical intensive care after elective intracranial procedures: is there a safe period? **1150 P**

Intraneural ganglion, Intraneural ganglion of the sciatic nerve: detection by ultrasound: *letter*, **870**

Intraoperative brain herniation, Acute intraoperative brain herniation complicating elective neurosurgery: neuroradiological findings, pathophysiological mechanisms and management considerations, **390 P**

Intraoperative confirmation, Intraoperative confirmation of functional MRI of motor cortex, **394 P**

Intraparenchymal frontal haemorrhage, Initial enlargement of the opposite pupil as a false localising sign in intraparenchymal frontal haemorrhage, **1126**

Intrareservoir antibiotic, Intrathecal baclofen pump infection treated by adjunct intrareservoir antibiotic instillation: *letter*, **1146**

Intrathecal antigen, New non-invasive rapid diagnosis of herpes simplex virus encephalitis by quantitative detection of intrathecal antigen with a chemiluminescence assay, **1112**

Intrathecal baclofen pump, Intrathecal baclofen pump infection treated by adjunct intrareservoir antibiotic instillation: *letter*, **1146**

Intravenous immunoglobulin G
Clinical and neurophysiological assessment of immunoglobulin therapy in five patients with multifocal motor neuropathy, **S31**
Experience with intravenous immunoglobulin G in myasthenia gravis, **S70**
High dose immunoglobulin IV treatment in adrenoleukodystrophy, **S58**; discussion, **S60**
Immunoglobulin treatment in human and experimental epilepsy, **S61**
Immunomodulating effects of intravenous immunoglobulin in autoimmune and inflammatory diseases, **S6**
In vitro effects of polyvalent immunoglobulin for intravenous use, **S15**
Indications for intravenous immunoglobulin therapy in inflammatory myopathies, **S65**
Intravenous gammaglobulin treatment in multiple sclerosis and experimental autoimmune encephalomyelitis: delineation of usage and mode of action, **S46**
Intravenous immunoglobulin G therapy in multiple sclerosis: progress from remyelination in the Theiler's virus model to a randomised, double-blind, placebo-controlled clinical trial, **S11**
Intravenous immunoglobulin G treatment in patients with chronic inflammatory demyelinating polyneuropathy, **S34**
Intravenous immunoglobulin treatment in patients with chronic inflammatory demyelinating neuropathy not responsive to other treatments, **S39**
On gammaglobulin treatment in neurology: fundamentals and clinical applications, supplement, **S1-S75**
Passage of intravenous immunoglobulin G and interaction with the CNS, **S21**

Promotion of remyelination by polyclonal immunoglobulin in Theiler's virus-induced demyelination and in multiple sclerosis, **S54**
Requirements for safety and quality of intravenous immunoglogulin G preparations, **S2**
The Guillain-Barré syndrome: plasma exchange or immunoglobulins intravenously, **S29**
Treatment of multiple sclerosis with IVIg: potential effects and methodology of clinical trials, **S51**

Iodobenzamide-SPECT, IBZM-SPECT predicts response to apomorphine in patients with "de-novo" Parkinsonian syndrome, **520 P**

Ipsilateral motor projections, Are ipsilateral motor projections activated during recovery from stroke? **517 P**

Iris, Cholinergic supersensitivity of the iris in Alzheimer's disease: *letter*, **1544**

Iron, Raised spinal concentrations of selenium and iron and glutathione peroxidase activity in sporadic motor neuron disease, **1289 P**

Iron status, Iron status, movement disorders, and acute phase response in elderly psychiatric patients, **208**

Isaac's syndrome, Clinical evaluation of plasma exchange and high dose intravenous immunoglobulin in a patient with Isaac's syndrome, **840**

Ischaemic optic neuropathy, Ischaemic optic neuropathy, transverse myelitis, and epilepsy in an anti-phospholipid positive patient with systemic lupus erythematosus: *letter*, **1142**

Isoprinosine, A placebo-controlled trial of isoprinosine in patients with multiple sclerosis, **164**

J

Japan
Apolipoprotein E polymorphism in Japanese patients with Alzheimer's disease or vascular dementia, **1414**
Optimisation of botulinum treatment for cervical and axial dystonias: experience with a Japanese type A toxin, **1535**

Japanese encephalitis, Radiological and neurophysiological changes in Japanese encephalitis, **1484**

Japanese writing system, Naming difficulties in alexia with agraphia for *kanji* after a left posterior inferior temporal lesion, **609**

Jarisch-Herxheimer reaction, Jarisch-Herxheimer reaction in a patient with neurosyphilis, **865**

JC virus infection, Cortical and subcortical JC virus infection: two unusual cases of AIDS associated progressive multifocal leukoencephalopathy, **994**

Journal of Neurology, Neurosurgery, and Psychiatry, Editorial evolution: *editorial announcement*, **1**

Jugular venous desaturation, Jugular venous desaturation and outcome after head injury, **717**

Juvenile metachromatic leucodystrophy, Bone marrow transplantation in juvenile metachromatic leucodystrophy, **509 P**

Juvenile myoclonic epilepsy, Carbamazepine in the treatment of generalised tonic clonic seizures in juvenile myoclonic epilepsy: *letter*, **503**

K

Kanji, Naming difficulties in alexia with agraphia for *kanji* after a left posterior inferior temporal lesion, **609**

Kennedy's syndrome, Kennedy's syndrome with arterial hypertension and goitre, **516 P**

Kidney transplants, Neurological complications due to cyclosporin in kidney transplants, **243 P**

Klinefelter's syndrome, Benign neurogenic amyotrophy in Klinefelter's syndrome, **640**

Knee, Effect of immobilisation on position and movement sense of the knee: *letter*, **382**

Kyphosis, Progressive kyphosis with cord compression in the rheumatoid cervical spine, **1148 P**

L

Lactate responses, Lactate responses to exercise in chronic fatigue syndrome: *matters arising*, **662**

Lactic acidosis
Acute peripheral neuropathy, rhabdomyolysis, and severe lactic acidosis associated with 3243 A to G mitochondial DNA mutation: *letter*, **1545**
Mitochondrial encephalomyopathy, lactic acidosis, and stroke-like episodes (MELAS) in adults, **1293 P**

Lambert-Eaton myasthenic syndrome
A randomised double blind controlled study of intravenous immunoglobulin in the Lambert-Eaton myasthenic syndrome, **1287 P**
Subacute cerebellar degeneration and Lambert-Eaton myasthenic syndrome associated with antibodies to voltage-gated calcium channels: *letter*, **1138**

Lamotrigine, Vigabatrin and lamotrigine in refractory epilepsy, **921**

Language, Ictal language shift in a polyglot: *letter*, **121**

Laser Doppler flowmetry
Continuous assessment of global cerebral blood flow using laser Doppler flowmetry in patients with head injury, **392 P**
Continuous monitoring of cortical perfusion by laser Doppler flowmetry inventilated patients with head injury, **1382**

Lathyrism, Peripheral and central conduction studies in neurolathyrism, **572**

Lathyrus sativus Mode of action of the neurolathyrism toxin β-oxalylamino-L-alanine, **252 P**

Learning disability, Right hemisphere learning disability associated with left hemisphere dysfunction: anomalous dominance and development, **1129**

Leber's hereditary optic neuropathy, Leber's hereditary optic neuropathy: an increasingly varied clinical spectrum, **246 P**

Leber's optic atrophy, Molecular and biochemical studies of a new mutation causing Leber's optic atrophy, **510 P**

Left mesencephalic infarction, Peduncular hallucinosis and right hemiparkinsonism caused by left mesencephalic infarction: *letter*, **870**

Left posterior inferior temporal lesion, Naming difficulties in alexia with agraphia for *kanji* after a left posterior inferior temporal lesion, **609**

Left thalamic infarct, Anomia for proper names after left thalamic infarct: *letter*, **1283**

Left unilateral spatial neglect, Preserved leftward movement in left unilateral spatial neglect due to frontal lesions, **1085**

Lenticulostriate infarcts, Neuropsychological changes related to unilateral lenticulostriate infarcts, **480**

Leptomeningeal gliomatosis, Leptomeningeal gliomatosis, **471**

Leptomeningeal sarcomatosis, Primary leptomeningeal sarcomatosis: a difficult diagnosis, **249 P**

Leukaemia
Chronic herpes simplex encephalitis in a man with myeloid leukaemia, **515 P**
Transient sixth-nerve palsy as the first presentation of acute leukaemia: *letter*, **506**

Leukoencephalitis, Acute diffuse leukoencephalitis in HIV-1 infection, **105**

Levodopa
A randomised controlled study comparing bromocriptine to which levodopa was later added, with levodopa alone in previously untreated patients with Parkinson's disease, **1034**
Effect of entacapone, a peripherally acting catechol-O-methyl—transferase inhibitor, on the motor response to acute treatment with levodopa in patients with Parkinson's disease, **186**
HMPAO SPECT in Parkinson's disease before and after levodopa: correlation with dopaminergic responsiveness, **180**
Motor response to apomorphine and levodopa in asymmetric Parkinson's disease, **562**: *matters arising*, **1444**
Motor response to levodopa in patients with parkinsonian motor fluctuations, **430**
Normal activation of the supplementary motor area in patients with Parkinson's disease undergoing long-term treatment with levodopa, **567**
Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**

Levodopa-carbidopa, The Sydney Multicentre Study of Parkinson's disease: a randomised, prospective five year study comparing low dose bromocriptine with low dose levodopa-carbidopa, **903**

Lewy bodies, Multiple system atrophy with Lewy bodies: a review of 15 cases, **251 P**

Lewy body disease, Clinicopathological findings in 22 cases of "Lewy body disease", **1293 P**

Lhermitte-Duclos disease, Association of Lhermitte-Duclos disease and Cowden disease, **699**

Lhermitte, Jean, Jean Lhermitte 1877-1959: Lhermitte's sign, **846**

Liaison neurology, Liaison neurology: influence of obtaining a neurological opinion on the diagnosis and management of hospital inpatients, **1292 P**

Lightning injury, Acute polyneuropathy from lightning injury, **520 P**

Limb ataxia, Limb ataxia, facial numbness, and Adie's pupils: ataxic ganglionopathy, **1296 P**

Limb temperature, Limb temperature and human tremors, **35**

Lingual muscles, Electrophysiological assessment of central and peripheral motor routes to the lingual muscles, **309**

Lingual myoclonus, Isolated lingual myoclonus associated with an Arnold-Chiari malformation: *letter*, **660**

Lipoatrophy, A patient with one limb interstitial myositis with localised lipoatrophy presenting with severe cramps and fasciculations, **1541**

Lipoprotein (a), Lipoprotein (a) concentrations in cerebrovascular saccular aneurysmal disease, **1152 P**

Lissencephaly, Subcortical laminar heterotopia and lissencephaly in two families: a single X linked dominant gene, **914**

Listeriosis granuloma, Diagnosis and therapy of perivascular listeriosis granuloma in the adult, **515 P**

Lisuride
Rigidity, akinesia, and dysphagia in OPCA and the effect of continuous lisuride infusion, **520 P**
Side effects of chronic subcutaneous administration of lisuride in the treatment of Parkinsonian patients with severe motor fluctuations, **520 P**
Locked-in syndrome
Control of respiration in the "locked in syndrome", **1293 P**
Locked-in syndrome in fulminant demyelinating disease: *letter*, **504**
Multimodal electrophysiological studies including motor evoked potentials in patients with locked-in syndrome, **1403**
Locomotor ataxia, Robert Bentley Todd (1809-60) and locomotor ataxia, **359**
London handicap scale, Handicap one year after a stroke: validity of a new scale, **825**
Lower urinary tract dysfunction, Indoramin for lower urinary tract dysfunction in multiple sclerosis, **1296 P**
Lumbar drainage, Effectiveness of shunting in patients with normal pressure hydrocephalus predicted by temporary, controlled-resistance, continuous lumbar drainage, **1430**
Lumbar infusion test, Computerised lumbar infusion test: multicentre experience in clinical studies in hydrocephalus, **1151 P**
Lumbar puncture, Walter Essex Wynter, Quincke, and lumbar puncture, **179**
Lumbar stenosis, Subarticular fenestration for lumbar stenosis, **388 P**
Lung cancer, Surgical treatment of brain metastases of lung cancer, **950**
Lupus anticoagulant, Rheumatic chorea and lupus anticoagulant: *letter*, **1545**
Lymphocyte distribution, Effects of intravenous methylprednisolone on lymphocyte distribution and function in patients with multiple sclerosis, **1292 P**
Lymphoma
ALkappa amyloid in a solitary extradural lymphoma, **751**
Detection of EBNA2-mRNA in primary central nervous system lymphomas in patients with AIDS, **509 P**

M
Magnetic resonance imaging
A preliminary study to compare functional disturbance of the visual pathway with anatomical deficit as assessed by magnetic resonance imaging in past demyelinating optic neuritis, **1297 P**
Accurate 3D combination and display of MR, CT, and MRA images for surgical planning, **392 P**
Benign form of multiple sclerosis: MRI, **1070**
Brain and spinal cord magnetic resonance imaging in motor neuron disease, **1298 P**
Comparison between fast spin echo and conventional spin echo in the detection of multiple sclerosis, **251**
Comparison of magnetic resonance angiography, duplex ultrasound, and digital subtraction angiography in assessment of extracranial internal carotid artery stenosis, **1466**
Correlation of quantitative magnetic resonance imaging abnormalities and disability in multiple sclerosis, **1299 P**
Dynamic magnetic resonance imaging for measurement of regional haemodynamics after transient cerebral ischaemia, **387 P**
Dysembryoplastic neuroepithelial tumour: a newly recognised neoplasm with distinctive neuroimaging and pathological features, **243**
Effects of corpus callosum division on medically intractable epilepsy, **394 P**
Herpes simplex encephalitis: long term magnetic resonance imaging and neuropsychological profile, **1334**
Herpes simplex virus type 2 ascending myeloradiculitis: MRI findings and rapid diagnosis by the polymerase chain method: *letter*, **869**
Image-guided intracranial aneurysm surgery, **395 P**
Increased specificity of magnetic resonance imaging in the early diagnosis of multiple sclerosis, **1298 P**
Infarction of the spinal cord, **250 P**
Infarction of the unilateral posterior horn and lateral column of the spinal cord with sparing of posterior columns: demonstration by MRI, **629**
Intraoperative confirmation of functional MRI of motor cortex, **394 P**
Longitudinal study of magnetic resonance imaging in HIV infection, **515 P**
Magnetic resonance imaging in degenerative ataxic disorders, **51**
Magnetic resonance imaging dynamics of progressive multiple sclerosis, **1294 P**
Magnetic resonance imaging of the optic nerve in benign intracranial hypertension, **247 P**
MRI of neuromyelitis optica: *letter*, **1140**
Multiple system atrophy: natural history, MRI morphology, and dopamine receptor imaging with ^{123}IBZM-SPECT, **1047**
Observer variation in reporting conventional and magnetic resonance angiograms of the carotid bifurcation, **1299 P**
Rapid high resolution and dynamic "blood flow" magnetic resonance imaging detects spinal arteriovenous malformations, **1285 P**
Serial monthly gadolinium enhanced magnetic resonance imaging in the monitoring of treatment of multiple sclerosis: the anti-CD4 trial design, **1295 P**
Serial MRI of the brain in asymptomatic patients infected with HIV: results from the UCMSM/Medical Research Council neurology cohort, **144**
SPECT and MRI findings in Sydenham's chorea: *letter*, **763**
Spinal cord magnetic resonance imaging in multiple sclerosis: lessons from fast stir, **1298 P**
Stereotactic guided craniotomy for cavernous angiomas presenting with epilepsy, **395 P**
Validation of CT targeting for functional stereotaxis with postoperative MRI, **394 P**
Wilson's disease: neurological and magnetic resonance imaging improvement on zinc treatment: *letter*, **1273**
Magnetic resonance spectroscopy
A study of patients with multiple sclerosis by magnetic resonance spectroscopy, **1292 P**
Brain and muscle energy metabolism studied in vivo by ^{31}P-magnetic resonance spectroscopy in NARP syndrome, **1492**
Localised proton magnetic resonance spectroscopy in metabolic and inflammatory encephalopathies of childhood, **511 P**
Magnetic stimulation, Excitability of the motor cortex to magnetic stimulation in patients with cerebellar lesions, **108**
Magnetisation transfer rate imaging, Magnetisation transfer rate imaging in multiple sclerosis, **245 P**
Malingering
Conversion hysteria/malingering: *neurology in literature*, **1004**
The coin-in-the-hand test: a new "bedside" test for the detection of malingering in patients with suspected memory disorder: *letter*, **385**
Manic-depressive psychosis, Neuropsychological impairment in manic-depressive psychosis, **122 P**
Mannitol, Indices of ICP waveform shape correlate with cerebral perfusion pressure but fail to predict efficacy of mannitol therapy for raised ICP, **1153 P**
Mapping, Electrical mapping of the spinal cord, **1149 P**
Masking, Visual information processing after severe closed head injury: effects of forward and backward masking, **818**
Masticatory muscles, Pathophysiology of hemimasticatory spasm, **43**
Measles, Measles epidemicity and seasonality of birth in multiple sclerosis, **1286 P**
Medial temporal lobe atrophy, Measures of medial temporal lobe atrophy in Alzheimer's disease: *letter*, **1438**
Medical image transmission, Emergency medical image transmission by fax, **1148 P**
MEDOS programmable shunt, Audit of the MEDOS programmable shunt, **1150 P**
MELAS
Acute peripheral neuropathy, rhabdomyolysis, and severe lactic acidosis associated with 3243 A to G mitochondial DNA mutation: *letter*, **1545**
Mitochondrial encephalomyopathy, lactic acidosis, and stroke-like episodes (MELAS) in adults, **1293 P**
MELAS syndrome, MELAS syndrome with mitochondrial $tRNA^{Leu(UUR)}$ gene mutation in a Chinese family, **586**
Memory
Everyday spatial memory and orientation after surgery for temporal lobe epilepsy, **1152 P**
Remote memory in early Alzheimer's disease, **1292 P**
Memory disorder, The coin-in-the-hand test: a new "bedside" test for the detection of malingering in patients with suspected memory disorder: *letter*, **385**
Menière's syndrome, A note on Menière's syndrome, **858**
Meningioma
Meningioma-induced fibrinolysis, **388 P**
Meningiomas of the cerebellopontine angle, **390 P**
Nuclear magnetic resonance proton spectroscopy of meningiomas, **1291 P**
Trigeminal neuralgia due to contralateral meningioma of the posterior cranial fossa: *letter*, **1010**
Meningitis
Antibiotic induced meningitis, **705**
Lymphomatous meningitis in AIDS-related systemic non-Hodgkin's lymphoma: a report of eight cases, **150**
Meningitis: neurological management, **405**
Outcome of aggressively treated malignant meningitis, **513 P**
Progressive paraparesis, lymphocytic meningitis, and stroke in a 37-year-old man, **111**
Meningoencephalitis
Management of meningoencephalitis in non-HIV immunodeficiency, **513 P**
Prognosis in non-bacterial meningoencephalitis, **515 P**
Mesencephalic cysts, Mesencephalic and third ventricle cysts: diagnosis and management in four cases, **1216**
Mesiobasal tumour, Heautoscopy, epilepsy, and suicide, **838**
Methylenetetrahydrofolate reductase deficiency, Methylenetetrahydrofolate reductase deficiency revealed by a neuropathy in a

psychotic adult: *letter*, **765**

Methylprednisolone
Effects of intravenous methylprednisolone on lymphocyte distribution and function in patients with multiple sclerosis, **1292 P**
Pulsed intravenous methylprednisolone combined with oral steroids as the initial treatment of inflammatory myopathies: *letter*, **1008**
Treatment of the Guillain-Barré syndrome with high dose immune globulins combined with methylprednisolone, **1287 P**

Microemboli, The role of microemboli in the neuropsychological sequelae of coronary artery bypass surgery, **249 P**

Microglial cells, Nitrite production by rat microglial cells, **517 P**

Micrographia, Micrographia associated with a parietal lobe lesion in multiple sclerosis, **739**

Midbrain haemorrhage, Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**

Middle cerebral artery, Hemispheric brain infarctions and clinical outcome in early and delayed middle cerebral artery recanalisation, **508 P**

Migraine
Elementary visual hallucinations in migraine and epilepsy, **1371**
Genetic heterogeneity of familial hemiplegic migraine, **1285 P**
Headache, **134**
Platelet secretion from dense and α-granules in vitro in migraine with or without aura, **557**
Precortical dysfunction of spatial and temporal visual processing in migraine, **1208**
Sulphation of catecholamines and phenols is reduced in migraine, **517 P**

Migratory neuropathy, Dominant migratory neuropathy with chromosome 17 deletion, **1295 P**

Miller Fisher syndrome
Abnormal evoked potentials in Miller Fisher syndrome: further evidence of combined peripheral and central demyelination: *letter*, **506**
Pathophysiological effects of antibodies in Miller Fisher syndrome, **1287 P**

Mills' syndrome, Mills' syndrome: ascending (or descending) progressive hemiplegia: a hemiplegic form of primary lateral sclerosis? *letter*, **1280**

Minimally invasive aneurysm surgery, Minimally invasive aneurysm surgery: is it safe? **1155 P**

Mitochondrial disorder, Reversible cortical oedema mimicking cortical dysplasia in mitochondrial disorder: *letter*, **1439**

Mitochondrial DNA mutation, Acute peripheral neuropathy, rhabdomyolysis, and severe lactic acidosis associated with 3243 A to G mitochondial DNA mutation: *letter*, **1545**

Mitochondrial DNA rearrangements, New studies of mitochondrial DNA rearrangements, **246 P**

Mitochondrial encephalomyopathy, Mitochondrial encephalomyopathy, lactic acidosis, and stroke-like episodes (MELAS) in adults, **1293 P**

Mitochondrial tRNA$^{Leu(UUR)}$ gene mutation, MELAS syndrome with mitochondrial tRNA$^{Leu(UUR)}$ gene mutation in a Chinese family, **586**

Monoamine metabolites, CSF concentration gradients of monoamine metabolites in patients with hydrocephalus, **1026**

Monoclonal gammopathy
Human immunoglobulin treatment of multifocal motor neuropathy and polyneuropathy associated with monoclonal gammopathy, **S42**
Soluble interleukin-2 receptor levels in serum of patients with demyelinating polyneuropathy associated with monoclonal gammopathy: *matters arising*, **126**

Monoclonal GM1 antibodies, Immunostaining patterns of monoclonal GM1 antibodies, **1296 P**

Motor activation, Normal activation of the supplementary motor area in patients with Parkinson's disease undergoing long-term treatment with levodopa, **567**

Motor cortex
Excitability of the motor cortex to magnetic stimulation in patients with cerebellar lesions, **108**
Transcallosal inhibition of the motor cortex in patients with hemiplegia of vascular origin, **514 P**

Motor cortical excitability, Suppression of motor cortical excitability by electrical stimulation over the cerebellum in Fisher's syndrome: *letter*, **1275**

Motor evoked potentials, Multimodal electrophysiological studies including motor evoked potentials in patients with locked-in syndrome, **1403**

Motor neuron(e) disease
Accuracy, reproducibility, and variability of hand-held dynamometry in motor neuron disease, **326**
Brain and spinal cord magnetic resonance imaging in motor neuron disease, **1298 P**
"Classic" motor neuron disease: psychological and single photon emission computed tomography correlates, **1289 P**
Computer simulation of neurone degeneration and fibre denervation in motor neurone disease, **511P**
Cu-Zn superoxide dismutase (SOD1) mutations and sporadic motor neuron disease in Scotland, **1289 P**
Does a random creatine kinase level correlate with prognosis in motor neuron disease? **521 P**
Molecular pathology of motor neuron disease with dementia, **243 P**
Motor neuron disease: neurological management, **886**
Motor neuron disease in a defined English population: estimates of incidence and mortality, **450**
Motor neuron disease on the increase: reality or fallacy? **519 P**
National motor neuron disease twin study: final results, **242 P**
Pilot study of smell identification in motor neuron disease, **519 P**
Raised spinal concentrations of selenium and iron and glutathione peroxidase activity in sporadic motor neuron disease, **1289 P**
Risk estimates for first degree relatives of patients with apparent sporadic motor neuron disease, **248 P**
Scottish Motor Neurone Disease Register: prospective study of motor neurone disease in Scotland: methodology, demography and clinical features of incident cases for 1989, **522 P**
The epidemiology of motor neuron disease in Scotland, **1288 P**

Motor neuropathy, A double blind placebo controlled trial of intravenous immunoglobulin and follow up study in motor neuropathy with conduction block and/or GM1 antibodies, **1287 P**

Motor symptoms, Association between presenting motor symptoms and the risk of cognitive impairment in Parkinson's disease, **1203**

Motor system, Central motor conduction in degenerative disorders of the motor system, **510 P**

Movement control, Role of the posterior lobes for movement control, **509 P**

Movement disorders
Iron status, movement disorders, and acute phase response in elderly psychiatric patients, **208**
Stereotaxic target selection for thalamotomy for movement disorders, **1148 P**

Movement related potentials, Abnormal movement related potentials in patients with lesions of basal ganglia and anterior thalamus, **100**

Multifocal eosinophilic granuloma, Multifocal eosinophilic granuloma presenting as progressive brainstem and cerebellar dysfunction, **980**

Multifocal leukoencephalopathy
Cortical and subcortical JC virus infection: two unusual cases of AIDS associated progressive multifocal leukoencephalopathy, **994**
Progressive multifocal leukoencephalopathy in AIDS: a clinicopathologic study using in-situ hybridisation and immunohistochemistry, **507 P**

Multifocal motor neuropathy
Clinical and neurophysiological assessment of immunoglobulin therapy in five patients with multifocal motor neuropathy, **S31**
Human immunoglobulin treatment of multifocal motor neuropathy and polyneuropathy associated with monoclonal gammopathy, **S42**

Multimodal electrophysiological studies, Multimodal electrophysiological studies including motor evoked potentials in patients with locked-in syndrome, **1403**

Multiple sclerosis
Absence of Epstein-Barr virus RNA in multiple sclerosis as assessed by in situ hybridisation, **975**
Alterations in suppressor-inducer T cells in multiple sclerosis and other neurological diseases, **246 P**
Analysis of horizontal saccades in multiple sclerosis is a useful clinical tool, **514 P**
Anti-endothelial cell antibodies in patients with multiple sclerosis, **245 P**
Autoimmune T cell repertoire in optic neuritis and multiple sclerosis: T cells recognising multiple myelin proteins are accumulated in cerebrospinal fluid, **544**
Benign form of multiple sclerosis: MRI, **1070**
British Isles survey of multiple sclerosis in twins: MRI, **491**
Cerebrospinal fluid in the diagnosis of multiple sclerosis, **897**
Comparison between fast spin echo and conventional spin echo in the detection of multiple sclerosis, **251**
Correlation of quantitative magnetic resonance imaging abnormalities and disability in multiple sclerosis, **1299 P**
Cortical plaques and blood brain barrier breakdown in multiple sclerosis, **1290 P**
Cyclosporin A versus azathioprine in multiple sclerosis, **516 P**
Dementia in two histologically confirmed cases of multiple sclerosis: one case with isolated dementia and one case associated with psychiatric symptoms, **353**
Effects of intravenous methylprednisolone on lymphocyte distribution and function in patients with multiple sclerosis, **1292 P**
Familial clustering of multiple sclerosis in a northern Swedish rural district, **497**
Fatigue and physical disability in multiple sclerosis, **245 P**
Immunogenetic basis of multiple sclerosis, **245 P**
Immunotherapy for multiple sclerosis: *editorial*, **3**
Increased specificity of magnetic resonance imaging in the early diagnosis of multiple sclerosis, **1298 P**

Indoramin for lower urinary tract dysfunction in multiple sclerosis, **1296 P**
Intracavernosal papaverine injections for men with multiple sclerosis and erectile difficulties, **511 P**
Intravenous gammaglobulin treatment in multiple sclerosis and experimental autoimmune encephalomyelitis: delineation of usage and mode of action, **S46**
Intravenous immunoglobulin G therapy in multiple sclerosis: progress from remyelination in the Theiler's virus model to a randomised, double-blind, placebo-controlled clinical trial, **S11**
Is acquired pendular nystagmus always phase locked?, **1263**
Magnetic resonance imaging dynamics of progressive multiple sclerosis, **1294 P**
Magnetisation transfer rate imaging in multiple sclerosis, **245 P**
Measles epidemicity and seasonality of birth in multiple sclerosis, **1286 P**
Micrographia associated with a parietal lobe lesion in multiple sclerosis, **739**
Multiple sclerosis in black South Africans and Zimbabweans, **1064**
Multiple sclerosis in sibling pairs, **250 P**
No association of multiple sclerosis with HLA DR and DQ alleles in Shanghai Chinese, **1294 P**
No linkage or association between multiple sclerosis and the myelin basic protein gene in affected sibling pairs, **1191**
Olfactory disturbances as the initial or most prominent symptom of multiple sclerosis: *letter*, **1011**
Placebo-controlled trial of isoprinosine in patients with multiple sclerosis, **164**
Prevalence survey of multiple sclerosis in Sussex, **1296 P**
Promotion of remyelination by polyclonal immunoglobulin in Theiler's virus-induced demyelination and in multiple sclerosis, **S54**
Prospective study of the effectiveness of neurorehabilitation in multiple sclerosis, **1294 P**
Recurrent confusion and ataxia triggered by pyrexia in a case of occult multiple sclerosis: *letter*, **1436**
Risk of multiple sclerosis after a single clinical episode of suspected demyelination, **507 P**
Serial monthly gadolinium enhanced magnetic resonance imaging in the monitoring of treatment of multiple sclerosis: the anti-CD4 trial design, **1295 P**
Serum ganglioside antibodies in multiple sclerosis, **245 P**
Spinal cord magnetic resonance imaging in multiple sclerosis: lessons from fast stir, **1298 P**
Study of patients with multiple sclerosis by magnetic resonance spectroscopy, **1292 P**
Total lymphoid irradiation in multiple sclerosis, **154**
Treatment of multiple sclerosis with IVIg: potential effects and methodology of clinical trials, **S51**

Multiple system atrophy
Cellular pathology of multiple system atrophy: a review: *editorial*, **129**
Clinical and magnetic resonance imaging study of extrapyramidal symptoms in multiple system atrophy, **1528**
Cognitive deficits in progressive supranuclear palsy, Parkinson's disease, and multiple system atrophy in tests sensitive to frontal lobe dysfunction, **79**
Differential diagnosis of Parkinson's disease, multiple system atrophy, and Steele-Richardson-Olszewski syndrome: discriminant analysis of striatal ^{18}F-dopa PET data, **278**
Multiple system atrophy: natural history, MRI morphology, and dopamine receptor imaging with ^{123}IBZM-SPECT, **1047**
Multiple system atrophy with Lewy bodies: a review of 15 cases, **251 P**
Proton magnetic resonance spectroscopy in multiple system atrophy and idiopathic Parkinson's disease, **1290 P**

Muscle fibre conduction, Surface EMG and muscle fibre conduction during attacks of hypokalaemic periodic paralysis, **632**
Muscle mounding and rippling, Benign familial disease with muscle mounding and rippling, **344**
Muscle strength, Muscle strength, voluntary activation, twitch properties, and endurance in patients with fibromyalgia, **1106**
Muscular atrophy, Expression of androgen receptor in X-linked spinal and bulbar muscular atrophy and amyotrophic lateral sclerosis: *letter*, **1274**
Muscular dystrophies, Single gene neurological disorders in South Wales, **518 P**
Musical hallucinations, Musical hallucinations, **1297 P**

Myasthenia gravis
An experimental approach to antigen-specific immunotherapy in myasthenia gravis, **244 P**
Experience with intravenous immunoglobulin G in myasthenia gravis, **S70**
Immunoadsorption therapy for myasthenia gravis, **578**
Ryanodine receptor antibodies related to severity of thymoma associated myasthenia gravis, **843**
Worsening of myasthenia gravis on treatment with imipenem/cilastatin: *letter*, **383**

Mycoplasma pneumoniae, Anticentriolar autoantibodies in children with central nervous system manifestations of *Mycoplasma pneumoniae* infection, **638**
Myelin, Promotion of remyelination by polyclonal immunoglobulin in Theiler's virus-induced demyelination and in multiple sclerosis, **S54**
Myelin basic protein gene, No linkage or association between multiple sclerosis and the myelin basic protein gene in affected sibling pairs, **1191**
Myeloradiculitis, Herpes simplex virus type 2 ascending myeloradiculitis: MRI findings and rapid diagnosis by the polymerase chain method: *letter*, **869**
Myoclonus, Neuromyotonia with myoclonus responding to plasmapheresis, **1286 P**
Myogenic potentials, Myogenic potentials generated by a click-evoked vestibulocollic reflex, **190**
Myopathies, Pulsed intravenous methylprednisolone combined with oral steroids as the initial treatment of inflammatory myopathies: *letter*, **1008**

Myositis
A patient with one limb interstitial myositis with localised lipoatrophy presenting with severe cramps and fasciculations, **1541**
Ankylosing spondylitis associated with myositis: *letter*, **661**

Myotonic dystrophy
Cataract incidence in myotonic dystrophy, **247 P**
Daytime sleep in myotonic dystrophy is not caused by sleep apnoea, **626**
Incorrect diagnosis of myotonic dystrophy and its potential consequences revealed by subsequent direct genetic analysis: *letter*, **662**
Intergenerational variations of the CTG sequence related to myotonic dystrophy: a close but not universal relationship between anticipation and amplification, **249 P**

Myotonic pupils, Myotonic pupils and hereditary motor and sensory neuropathy, **519 P**

N

Narcolepsy, Narcolepsy-like sleep episodes as the only manifestation of epilepsy, **516 P**
Narcoleptic syndrome, The genetics of the narcoleptic syndrome, **122 P**
NARP syndrome, Brain and muscle energy metabolism studied in vivo by ^{31}P-magnetic resonance spectroscopy in NARP syndrome, **1492**
National Hospital, Queen Square, British neurology: a national focus: *letter*, **1136**
Near infrared spectroscopy, Assessment of cerebral hypoxia using near infrared spectroscopy during carotid endarterectomy, **1154 P**
Neck-tongue syndrome, The neck-tongue syndrome, **348**

Neglect
Bedside investigation of neglect: one or more (sub)syndromes? **1290 P**
Proximal intentional neglect: a case study, **1395**
Residual rightward attentional bias after apparent recovery from right hemisphere damage: implications for a multicomponent model of neglect, **597**

Neocorticectomy, Factors predictive of a good response to temporal neocorticectomy in temporal lobe epilepsy, **508 P**
Neopterin, Serum concentrations of 2',5'-oligoadenylate synthetase, neopterin, and β-glucan in patients with chronic fatigue syndrome and in patients with major depression: *letter*, **1015**
Nerve biopsies, Immunocytochemical studies on human nerve biopsies, **512 P**
Nerve injury, Functional effects of nerve injury and amputation, **521 P**
Nerve muscle pedicle reinnervation, Nerve muscle pedicle reinnervation of skeletal muscle, **387 P**
Nerve palsies, Familial recurrent multiple cranial nerve palsies: *letter*, **868**
Neuralgia, Neuralgia: *neurology in literature*, **1069**
Neurobehavioural consequences, Neurobehavioural consequences of closed head injury in older adults, **961**
Neurodegenerative illness, Screening for cognitive dysfunction in neurodegenerative illness: *letter*, **1282**
Neurofibrillary tangles, Diffuse neurofibrillary tangles with calcification: a new presenile dementia, **594**
Neurofibromatosis type 1, Cerebral glucose metabolism in neurofibromatosis type 1 assessed with [^{18}F]-2-fluoro-2-deoxy-D-glucose and PET, **1479**
Neurofilament immunoreactivity, Loss of non-phosphorylated neurofilament immunoreactivity, with preservation of tyrosine hydroxylase, in surviving substantia nigra neurons in Parkinson's disease, **1039**
Neurogenic respiratory insufficiency, Use of the rocking bed in the treatment of neurogenic respiratory insufficiency, **247 P**
Neurolathyrism, Peripheral and central conduction studies in neurolathyrism, **572**
Neurological disability, Survey of neurological disability at a district general hospital, **517 P**
Neurological disease, Clinical genetics in neurological disease, **7**
Neurological practice, Somatisation in neurological practice: *editorial*,

1161
Neurology, Economic change and health service reform: likely impact on teaching, practice, and research in neurology: *editorial*, **667**
Neuromuscular respiratory paralysis, Acute neuromuscular respiratory paralysis: *letter*, **762**
Neuromyelitis optica, MRI of neuromyelitis optica: *letter*, **1140**
Neuromyotonia, Neuromyotonia with myoclonus responding to plasmapheresis, **1286 P**
Neuronal mitochondria, Abnormal neuronal mitochondria: a cause of reduced N-acetyl containing compounds in demyelinating disease, **1291 P**
Neuropathy(ies)
Duplication and deletion of chromosome 17p11.2 in demyelinating neuropathies, **242 P**
Gangliosides and autoimmune neuropathies: classification and clinical aspects of autoimmune neuropathies, **S26**
Peripheral neuropathy in HIV infection, small and large fibre involvement, **250 P**
Sulphur metabolism in giant axonal neuropathy, **249 P**
Tomaculous neuropathy: *neurological picture*, **16**
Neuropsychological changes, Neuropsychological changes related to unilateral lenticulostriate infarcts, **480**
Neuropsychological findings, Neuropsychological findings in a non-clinical sample of workers exposed to solvents, **614**
Neuropsychological impairment, Neuropsychological impairment in manic-depressive psychosis, **122 P**
Neurorehabilitation, A prospective study of the effectiveness of neurorehabilitation in multiple sclerosis, **1294 P**
Neurostimulation, Neurostimulation for pain relief: the Royal London Hospital experience, **1149 P**
Neurosurgery, Antimicrobial prophylaxis in neurosurgery and following head injury, **391 P**
Neurosurgical intensive care, Use of neurosurgical intensive care after elective intracranial procedures: is there a safe period? **1150 P**
Neurosurgical patients, Auditing outcome in neurosurgical patients, **1153 P**
Neurosyphilis
Jarisch-Herxheimer reaction in a patient with neurosyphilis, **865**
Neurosyphilis, **454**
Neurotoxin, Mode of action of the neurolathyrism toxin *β*-oxalyl-amino-L-alanine, **252 P**
Neurovascular compression, Anatomy of neurovascular compression of the lower cranial nerves, **1151 P**
Nigral pathology, The relationship between nigral pathology and isolated tremor studies with PET and ^{18}F-Dopa, **510 P**
Nitric oxide, The role of nitric oxide in vasospasm after subarachnoid haemorrhage, **1155 P**
Nitrite, Nitrite production by rat microglial cells, **517 P**
Nocturnal hypoventilation, Papilloedema and visual failure in a patient with nocturnal hypoventilation: *letter*, **1546**
Non-Hodgkin's lymphoma, Lymphomatous meningitis in AIDS-related systemic non-Hodgkin's lymphoma: a report of eight cases, **150**
Non-infectious neurological diseases, Occurrence of oligoclonal bands in non-infectious neurological diseases, **523 P**
Non-ketotic hyperglycaemia, Hemiballism-hemichorea and non-ketotic hyperglycaemia, **748**
Normal pressure hydrocephalus
Effectiveness of shunting in patients with normal pressure hydrocephalus predicted by temporary, controlled-resistance, continuous lumbar drainage, **1430**
Hippocampal atrophy correlates with severe cognitive impairment in elderly patients with suspected normal pressure hydrocephalus, **590**
Three decades of normal pressure hydrocephalus: are we wiser now? *editorial*, **1021**
Notices, **126**, **256**, **397**, **525**, **528**, **666**, **770**, **874**, **875**, **1019**, **1160**, **1444**
Nuclear magnetic resonance proton spectroscopy, Nuclear magnetic resonance proton spectroscopy of meningiomas, **1291 P**
Nystagmus
Is acquired pendular nystagmus always phase locked?, **1263**
Nystagmus as the presentation of tentorial incisure subdural haematoma, **830**

O
Obesity, Prader Willi syndrome as an example of genetic obesity, **124 P**
Objective attention deficit, Objective attention deficit in the postviral fatigue syndrome, **122 P**
Obsessive compulsive disorders
Obsessional disorder in Gilles de la Tourette syndrome, **123 P**
Obsessive compulsive disorders, **123 P**
Psychosurgery for obsessive compulsive disorder, **123 P**
Occult multiple sclerosis, Recurrent confusion and ataxia triggered by pyrexia in a case of occult multiple sclerosis: *letter*, **1436**
Oculomotor nerve palsy, Bilateral chronic subdural haematoma: an unusual presentation with isolated oculomotor nerve palsy: *letter*, **1146**
Olfactory aplasia, Incidental olfactory aplasia: a case report: *letter*, **240**
Olfactory disturbances, Olfactory disturbances as the initial or most prominent symptom of multiple sclerosis: *letter*, **1011**
Olfactory function, Olfactory function in progressive supranuclear palsy and corticobasal degeneration, **251 P**
2′,5′-Oligoadenylate synthetase, Serum concentrations of 2′,5′-oligoadenylate synthetase, neopterin, and *β*-glucan in patients with chronic fatigue syndrome and in patients with major depression: *letter*, **1015**
Oligoclonal bands, Occurrence of oligoclonal bands in non-infectious neurological diseases, **523 P**
Oligodendrocyte type 2 astrocyte lineage, Isolation and characterisation of a human cell line of the oligodendrocyte type 2 astrocyte lineage derived from a glioblastoma multiforme, **1293 P**
Olivopontocerebellar atrophy
Reflex myoclonus in olivopontocerebellar atrophy, **316**
Rigidity, akinesia, and dysphagia in OPCA and the effect of continuous lisuride infusion, **520 P**
Opiate receptors, Opiate receptors in the brain: *neurological picture*, **1165**
Opioid, Effect of absence seizures on cerebral opioid binding, measured with positron emission tomography, **507 P**
Optic nerve, Magnetic resonance imaging of the optic nerve in benign intracranial hypertension, **247 P**
Optic nerve sheath
Optic nerve sheath decompression, **517 P**
Optic nerve sheath decompression for the treatment of visual failure in chronic raised intracranial pressure, **1426**
Optic neuritis, Autoimmune T cell repertoire in optic neuritis and multiple sclerosis: T cells recognising multiple myelin proteins are accumulated in cerebrospinal fluid, **544**
Optic neuropathy
An epidemic of optic neuropathy and painful sensory neuropathy in Cuba, **1288 P**
Luminance and chromatic contrast sensitivity in anterior ischaemic optic neuropathy, **1293 P**
Optical scanning technology, Report of a national neurosurgical teleradiology system based on optical scanning technology, **1148 P**
Opticomyelitis, Recurrent opticomyelitis associated with anti-DNA antibody, **1124**
Organophosphate poisoning, October 1942: a strange epidemic paralysis in Saval, Verona, Italy. Revision and diagnosis 50 years later of tri-ortho-cresyl phosphate poisoning, **810**
Orientation, Everyday spatial memory and orientation after surgery for temporal lobe epilepsy, **1152 P**
Orofacial dyspraxia, Clinical, metabolic, and histopathological correlates of orofacial dyspraxia, **516 P**
Os odontoideum, Plain man's guide to os odontoideum, **388 P**
Oscillations, The assessment of cerebral arterial autoregulation using induced oscillations in blood pressure, **1155 P**
Osteoplastic flap, Osteoplastic *v* free flap craniotomy, **1156 P**
Ovarian carcinoma, Paraneoplastic opsoclonus-myoclonus syndrome in metastatic ovarian carcinoma: *letter*, **763**
***β*-Oxalyl-amino-L-alanine**, Mode of action of the neurolathyrism toxin *β*-oxalyl-amino-L-alanine, **252 P**
Oxygen, Dynamic oxygen micropolarography of peritumoural white matter: the influence of oedema on tissue oxygenation, **387 P**

P
Paclitaxel, Peripheral neuropathy induced by paclitaxel (taxol)
Pain
Cerebral responses to pain in patients with atypical facial pain measured by positron emission tomography, **1166**
Congenital insensitivity to pain: a 20 year follow up, **973**
Neurostimulation for pain relief: the Royal London Hospital experience, **1149 P**
Spinal intrathecal baclofen suppresses central pain after a stroke: *letter*, **381**
Panhypopituitarism, Panhypopituitarism after cavernous sinus thrombosis: *letter*, **1010**
Papaverine, Intracavernosal papaverine injections for men with multiple sclerosis and erectile difficulties, **511 P**
Papilloedema, Papilloedema and visual failure in a patient with nocturnal hypoventilation: *letter*, **1546**
Paraneoplastic opsoclonus-myoclonus syndrome, Paraneoplastic opsoclonus-myoclonus syndrome in metastatic ovarian carcinoma: *letter*, **763**
Paraneoplastic syndrome, Peroneal neuropathy in patients with cancer: a paraneoplastic syndrome, **1294 P**
Paraparesis, Progressive paraparesis, lymphocytic meningitis, and stroke in a 37-year-old man, **111**
Parietal lobe lesion, Micrographia associated with a parietal lobe lesion in multiple sclerosis, **739**
Parietotemporal lesion, Visual hallucinations with written words in a case of left parietotemporal lesion, **1268**
Parkinson, John and James, John and James Parkinson on appendicitis, **648**

Parkinsonian tremor, Thalamus stimulation, a treatment for Parkinsonian tremor, **1297 P**
Parkinsonism, Subthalamotomy improves MPTP-induced Parkinsonism in monkeys, **246 P**
Parkinson's disease (syndrome)
A randomised controlled study comparing bromocriptine to which levodopa was later added, with levodopa alone in previously untreated patients with Parkinson's disease, **1034**
Ability to modulate walking cadence remains intact in Parkinson's disease, **1532**
Abnormal colour perception in treated and untreated Parkinsonian patients, **520 P**
Absence of disease related prion protein in neurodegenerative disorders presenting with Parkinson's syndrome, **1249**
Acceptability of electroconvulsive therapy to patients with Parkinson's disease: *letter*, **383**
Akinesia in Parkinson's disease: a PET study demonstrating impaired mesial frontal activation reversed by apomorphine, **509 P**
Apomorphine induced cognitive changes in Parkinson's disease, **998**
Association between presenting motor symptoms and the risk of cognitive impairment in Parkinson's disease, **1203**
Brain glucose utilisation in a patient with "athymhormia" from a family with autosomal dominant parkinsonism and psychic disturbances: *letter*, **1014**
Central executive deficit in patients with Parkinson's disease, **360**
Cognitive deficits in progressive supranuclear palsy, Parkinson's disease, and multiple system atrophy in tests sensitive to frontal lobe dysfunction, **79**
Constipation in Parkinson's disease, **520 P**
Debrisoquine hydroxylase gene polymorphism in familial Parkinson's disease, **911**
Differential diagnosis of Parkinson's disease, multiple system atrophy, and Steele-Richardson-Olszewski syndrome: discriminant analysis of striatal ^{18}F-dopa PET data, **278**
Does selegiline delay progression of Parkinson's disease? A critical re-evaluation of the DATATOP study, **217**
Drug treatment of Parkinson's disease: is "polypharmacy" best?, **401**
Effect of age at onset on frequency of depression in Parkinson's disease, **1265**
Effect of entacapone, a peripherally acting catechol-O-methyltransferase inhibitor, on the motor response to acute treatment with levodopa in patients with Parkinson's disease, **186**
Exercise enhances postural hypotension in primary autonomic failure, but not in idiopathic Parkinson's disease, **251 P**
Familial Parkinson's disease and polymorphism at the CYP2D6 locus: *letter*, **871**
HMPAO SPECT in Parkinson's disease before and after levodopa: correlation with dopaminergic responsiveness, **180**
IBZM-SPECT predicts response to apomorphine in patients with "de-novo" Parkinsonian syndrome, **520 P**
Implantation of human fetal ventral mesencephalon to the bilateral caudate nuclei in advanced Parkinson's disease, **387 P**
Loss of non-phosphorylated neurofilament immunoreactivity, with preservation of tyrosine hydroxylase, in surviving substantia nigra neurons in Parkinson's disease, **1039**
Motor response to apomorphine and levodopa in asymmetric Parkinson's disease, **562**: *matters arising*, **1444**
Motor response to levodopa in patients with parkinsonian motor fluctuations, **430**
Normal activation of the supplementary motor area in patients with Parkinson's disease undergoing long-term treatment with levodopa, **567**
Parkinson's disease: neurological management, **672**
Persistent hemiballism in Parkinson's disease: *letter*, **1013**
Presynaptic inhibition of soleus Ia afferent terminals in Parkinson's disease, **1488**
Proton magnetic resonance spectroscopy in multiple system atrophy and idiopathic Parkinson's disease, **1290 P**
Reduction in external cues and movement sequencing in Parkinson's disease, **368**
Risk factors for Parkinson's disease: a case-control study in the province of Caceres, Spain, **248 P**
Side effects of chronic subcutaneous administration of lisuride in the treatment of Parkinsonian patients with severe motor fluctuations, **520 P**
Survival of patients with idiopathic Parkinson's disease, **1297 P**
The effect of cycling of H-reflex amplitude and presynaptic inhibition in Parkinson's disease, **1296 P**
The Sydney Multicentre Study of Parkinson's disease: a randomised, prospective five year study comparing low dose bromocriptine with low dose levodopa-carbidopa, **903**
Upper airway dysfunction in patients with Parkinson's disease, **248 P**
Paroxysmal tremor, Familial paroxysmal tremor: an essential tremor variant: *matters arising*, **1019**
Partial seizures, Effects of vigabatrin on partial seizures and cognitive function, **1057**
Peduncular hallucinosis, Peduncular hallucinosis and right hemiparkinsonism caused by left mesencephalic infarction: *letter*, **870**
Pendular nystagmus, Is acquired pendular nystagmus always phase locked?, **1263**
Penfield's homonculus, Penfield's homunculus: *matters arising*, **525**
Periodic epileptiform discharges, Elementary mechanisms of periodic epileptiform discharges, **512 P**
Peripheral nerve proteins, Glycation of peripheral nerve proteins in diabetes mellitus, **1288 P**
Peripheral nervous system, Receptors for gammaglobulin in the central and peripheral nervous system, **S9**
Peripheral neuropathy
Acute peripheral neuropathy, rhabdomyolysis, and severe lactic acidosis associated with 3243 A to G mitochondial DNA mutation: *letter*, **1545**
Antibodies to glycoconjugates in peripheral neuropathy, **1287 P**
Antiglycolipid antibodies in peripheral neuropathy: fact or fiction? *editorial*, **1303**
Axon flare response in peripheral neuropathies, **1295 P**
Peripheral neuropathy associated with dialysis amyloidosis: *letter*, **1137**
Peripheral neuropathy associated with HTLV-1 infection, **520 P**
Peripheral neuropathy associated with primary Sjögren's syndrome, **983**
Peripheral neuropathy in association with insulinoma: clinical features and neuropathology of a new case: *letter*, **1009**
Peripheral neuropathy in HIV infection, small and large fibre involvement, **250 P**
Peripheral neuropathy induced by paclitaxel (taxol)
Peroneal muscular atrophy, Peroneal muscular atrophy with pyramidal tract features (hereditary motor and sensory neuropathy type V): a clinical, neurophysiological, and pathological study of a large kindred, **1343**
Peroneal neuropathy, Peroneal neuropathy in patients with cancer: a paraneoplastic syndrome, **1294 P**
Perth, Spectrum of primary intracerebral haemorrhage in Perth, Western Australia, 1989-90: incidence and outcome, **936**
Pharyngeal-cervical-brachial variant, Two species of antiganglioside antibodies in a patient with a pharyngeal-cervical-brachial variant of Guillain-Barré syndrome, **1121**
Phenols, Sulphation of catecholamines and phenols is reduced in migraine, **517 P**
Phenylketonuria
Neurological follow-up study of patients with phenylketonuria, **124 P**
Proton magnetic resonance spectroscopy in adult cases of phenylketonuria, **1292 P**
Phenytoin, The neuropharmacokinetics of acutely administered phenytoin in the rat, **1299 P**
Physical disability, Fatigue and physical disability in multiple sclerosis, **245 P**
Physical therapy, Enhanced physical therapy for arm function after stroke, **856**
Pick's disease, Familial Pick's disease and dementia in frontal lobe degeneration of non-Alzheimer type are not variants of prion disease: *letter*, **762**
Pineal tumours
Clinicopathological experience over 30 years with pineal region tumours in Northern Ireland, **390 P**
Endoscopic management of pineal tumours, **389 P**
Pituitary tumours, Atypical presentation of vascular events in pituitary tumours: a "non-apoplectic" pituitary apoplexy: *letter*, **1441**
Plasma exchange
Clinical evaluation of plasma exchange and high dose intravenous immunoglobulin in a patient with Isaac's syndrome, **840**
The Guillain-Barré syndrome: plasma exchange or immunoglobulins intravenously, **S29**
Plasmapheresis, Neuromyotonia with myoclonus responding to plasmapheresis, **1286 P**
Platelets, Platelet secretion from dense and α-granules in vitro in migraine with or without aura, **557**
Polymerase chain reaction
Herpes simplex virus type 2 ascending myeloradiculitis: MRI findings and rapid diagnosis by the polymerase chain method: *letter*, **869**
Retrospective diagnosis of fatal herpes simplex myelitis by immunocytochemisty and polymerase chain reaction: *letter*, **1272**
Polymyositis, Indications for intravenous immunoglobulin therapy in inflammatory myopathies, **S65**
Polyneuropathy
Acute polyneuropathy from lightning injury, **520 P**
An "n of 1" trial of intravenous immunoglobulin treatment for chronic inflammatory demyelinating polyneuropathy: *letter*, **1137**
Antiarrhythmic drugs and polyneuropathy, **340**
Chronic idiopathic axonal polyneuropathy: a five year follow up, **1525**
Chronic progressive motor polyneuropathy after ganglioside treatment: *letter*, **238**
Familial inflammatory demyelinating polyneuropathy: a Guillain-Barré syndrome variant without autoimmune predilection: *letter*, **1008**

Human immunoglobulin treatment of multifocal motor neuropathy and polyneuropathy associated with monoclonal gammopathy, **S42**
Primary Sjögren's syndrome in chronic polyneuropathy presenting in middle or old age: letter, **1276**
Soluble interleukin-2 receptor levels in serum of patients with demyelinating polyneuropathy associated with monoclonal gammopathy: *matters arising*, **126**

"Polypharmacy", Drug treatment of Parkinson's disease: is "polypharmacy" best?, **401**

Positron emission tomography
Brain glucose utilisation in acquired childhood aphasia associated with a sylvian arachnoid cyst: recovery after shunting as demonstrated by PET, **296**
Cerebral glucose metabolism in neurofibromatosis type 1 assessed with [^{18}F]-2-fluoro-2-deoxy-D-glucose and PET, **1479**
Cerebral responses to pain in patients with atypical facial pain measured by positron emission tomography, **1166**
Cerebral responses to trigeminal neuralgia pain measured by positron emission tomography, **1149 P**
Demonstration of thalamic activation during absence seizures using $H_2{}^{15}O$ positron emission tomography, **245 P**
Differential diagnosis of Parkinson's disease, multiple system atrophy, and Steele-Richardson-Olszewski syndrome: discriminant analysis of striatal ^{18}F-dopa PET data, **278**
Pure amnesia after unilateral left polar thalamic infarct: topographic and sequential neuropsychological and metabolic (PET) correlations, 27: *matters arising*, **1157**

Post-traumatic amnesia, Post-traumatic amnesia: still a valuable yardstick, **198**

Posterior columns, Infarction of the unilateral posterior horn and lateral column of the spinal cord with sparing of posterior columns: demonstration by MRI, **629**

Posterior inferior cerebellar artery, Infarcts in the territory of the lateral branch of the posterior inferior cerebellar artery, **1073**

Posterior lobes, Role of the posterior lobes for movement control, **509 P**

Postherpetic neuralgia
Headache, **134**
Myelinated Aβ-afferents signal allodynia associated with postherpetic neuralgia, **516 P**

Postural hypotension, Exercise enhances postural hypotension in primary autonomic failure, but not in idiopathic Parkinson's disease, **251 P**

Postural tremor, Benign thalamic cyst presenting with contralateral postural tremor: *letter*, **1139**

Postviral fatigue syndrome, Objective attention deficit in the postviral fatigue syndrome, **122 P**

Prader Willi syndrome, Prader Willi syndrome as an example of genetic obesity, **124 P**

Precortical dysfunction, Precortical dysfunction of spatial and temporal visual processing in migraine, **1208**

Presenile dementia, Diffuse neurofibrillary tangles with calcification: a new presenile dementia, **594**

Pressure palsies, DNA analysis in Finnish patients with hereditary neuropathy with liability to pressure palsies (HNPP), **1260**

Primary empty sellae, Primary empty sellae associated with syringomyelia, **250 P**

Primary lateral sclerosis, Mills' syndrome: ascending (or descending) progressive hemiplegia: a hemiplegic form of primary lateral sclerosis? *letter*, **1280**

Prion disease, Familial Pick's disease and dementia in frontal lobe degeneration of non-Alzheimer type are not variants of prion disease: *letter*, **762**

Prion protein, Absence of disease related prion protein in neurodegenerative disorders presenting with Parkinson's syndrome, **1249**

Progressive supranuclear palsy, Initial letter and semantic category fluency in Alzheimer's disease, Huntington's disease, and progressive supranuclear palsy, **1389**

Proparacaine, Relief of trigeminal neuralgia by proparacaine: *letter*, **121**

Prophylaxis, Antimicrobial prophylaxis in neurosurgery and following head injury, **391 P**

Prostacyclin derivative, Effect of treatment of delayed cerebral ischaemia in aneurysmal subarachnoid haemorrhage with prostacyclin derivative (iloprost), **393 P**

Protein C deficiency, Congenital protein C deficiency and superior sagittal sinus thrombosis causing isolated intracranial hypertension, **655**

Proton magnetic resonance spectroscopy
Proton magnetic resonance spectroscopy in adult cases of phenylketonuria, **1292 P**
Proton magnetic resonance spectroscopy in multiple system atrophy and idiopathic Parkinson's disease, **1290 P**

Proximal intentional neglect, Proximal intentional neglect: a case study, **1395**

Pseudoaneurysm, Carotid stenting: an alternative to surgery for carotid pseudoaneurysm? **1297 P**

Psychiatric morbidity, Psychiatric morbidity after surgery for epilepsy: short term follow up of patients undergoing amygdalohippocampectomy, **1375**

Psychosurgery, Psychosurgery for obsessive compulsive disorder, **123 P**

Pulvinar
Impaired stereoacuity due to a lesion in the left pulvinar, **652**
Role of the pulvinar in ideomotor praxis: *letter*, **1282**

Pump, Management of severe spasticity with intrathecal baclofen delivered by a manually operated pump, **582**

Pupil
Initial enlargement of the opposite pupil as a false localising sign in intraparenchymal frontal haemorrhage, **1126**
The pupil: *neurology in literature*, **1179**

Pure motor demyelinating neuropathy, Pure motor demyelinating neuropathy: deterioration after steroid treatment and improvement with intravenous immunoglobulin, **778**

Pyrexia, Recurrent confusion and ataxia triggered by pyrexia in a case of occult multiple sclerosis: *letter*, **1436**

Q

Quinagolide, Benign intracranial hypertension associated with the withdrawal of a non-ergot dopamine agonist, **371**

Quincke HI, Walter Essex Wynter, Quincke, and lumbar puncture, **179**

R

Rabies, Rabies: an explanation for the vampire legend, **244 P**

Radiculopathy, Management of cervical spondylotic myelopathy and radiculopathy: *editorial*, **257**

Rasmussen's syndrome, Reappraisal of Rasmussen's syndrome with special emphasis on treatment with high doses of steorids, **1325**

Reference frames, Picturing unilateral spatial neglect: viewer versus object centred reference frames, **1236**

Reflex myoclonus, Reflex myoclonus in olivopontocerebellar atrophy, **316**

Regional neurosurgical unit, Nonoperative admissions to a regional neurosurgical unit: are they justified? **389 P**

Rehabilitation, Proceedings of the winter meeting of the British Neuropsychiatric Association, London, 21 January 1994, **1017**

Relaxometry, Detection of hippocampal pathology by T2 relaxometry, **246 P**

Remyelination, Promotion of remyelination by polyclonal immunoglobulin in Theiler's virus-induced demyelination and in multiple sclerosis, **S54**

Respiratory abnormalities, Respiratory abnormalities due to craniovertebral junction compression, **1291 P**

Respiratory muscles, Separation of voluntary and limbic activation of facial and respiratory muscles in ventral pontine infarction: *letter*, **1281**

Rest tremor, Rest tremor and extrapyramidal symptoms after midbrain haemorrhage: clinical and ^{18}F-dopa PET evaluation, **987**

Reviews, Archie Cochrane's challenge: can periodically updated reviews and *all* randomised controlled trials relevant to neurology and neurosurgery be produced: *editorial*, **529**

Rhabdomyolysis, Acute peripheral neuropathy, rhabdomyolysis, and severe lactic acidosis associated with 3243 A to G mitochondial DNA mutation: *letter*, **1545**

Rheumatic chorea, Rheumatic chorea and lupus anticoagulant: *letter*, **1545**

Rheumatoid cervical spine, Progressive kyphosis with cord compression in the rheumatoid cervical spine, **1148 P**

Rhinorrhoea, Benign intracranial hypertension: a cause of CSF rhinorrhoea, **847**

Right hemisphere damage, Residual rightward attentional bias after apparent recovery from right hemisphere damage: implications for a multicomponent model of neglect, **597**

Right hemisphere learning disability, Right hemisphere learning disability associated with left hemisphere dysfunction: anomalous dominance and development, **1129**

Right parietal lobe infarction, Visually induced central pain and arm withdrawal after right parietal lobe infarction, **850**

Risk factors
Haemorheological deficits are a secondary risk factor for stroke, **518 P**
Risk factors for Parkinson's disease: a case-control study in the province of Caceres, Spain, **248 P**
TIAs: which patients are at high (and low) risk of further vascular events? **508 P**

Rocking bed, Use of the rocking bed in the treatment of neurogenic respiratory insufficiency, **247 P**

Ryanodine receptor antibodies, Ryanodine receptor antibodies related to severity of thymoma associated myasthenia gravis, **843**

S

Saccades, Visually and memory guided saccades in a case of cerebellar saccadic dysmetria, **1081**

Saccadic dysmetria, Saccadic dysmetria and "intact" smooth pursuit eye movements after bilateral deep cerebellar nuclei lesions, **832**

Saccadic eye movements
A pathophysiological approach to saccadic eye movements in neurological and psychiatric disease: *editorial*, **881**
Saccadic eye movements are impaired by transcranial magnetic stimulation, **514 P**
Sarcoidosis, Sarcoidosis of the central nervous system, **522 P**
Sarcomatosis, Primary leptomeningeal sarcomatosis: a difficult diagnosis, **249 P**
Saval, October 1942: a strange epidemic paralysis in Saval, Verona, Italy. Revision and diagnosis 50 years later of tri-ortho-cresyl phosphate poisoning, **810**
SCA1 mutation, Absence of SCA1 mutation in idiopathic cerebellar ataxia: *letter*, **1439**
Schizophrenia
Clinical correlates of postmortem brain changes in schizophrenia: decreased brain weight and length correlate with indices of early impairment, **474**
Unexpected focal brain lesions in schizophrenics and their relationship to abnormal involuntary movements, **123 P**
Sciatic nerve, Intraneural ganglion of the sciatic nerve: detection by ultrasound: *letter*, **870**
Sciatica, Investigation of postoperative recurrent sciatica, **1148 P**
Scottish Motor Neurone Disease Register, Scottish Motor Neurone Disease Register: prospective study of motor neurone disease in Scotland: methodology, demography and clinical features of incident cases for 1989, **522 P**
Seizures
Amnesic syndrome after theophylline associated seizures: iatrogenic brain injury, **643**
Effect of absence seizures on cerebral opioid binding, measured with positron emission tomography, **507 P**
Findings from the national survey of electronic screen game seizures, **1290 P**
Typical absence seizures in adults: I. Clinical-EEG and video-EEG findings in 23 patients: II. Syndromic classification, **512 P**
Use of the hand held video camcorder in the evaluation of seizures, **1417**
Video game associated seizures: heterogeneous phenomena, **247 P**
Video game induced seizures, **925**
Selegiline, Does selegiline delay progression of Parkinson's disease? A critical re-evaluation of the DATATOP study, **217**
Selenium, Raised spinal concentrations of selenium and iron and glutathione peroxidase activity in sporadic motor neuron disease, **1289 P**
Semantic memory, Semantic memory and frontal executive function during transient global amnesia, **605**
Sensory ataxic neuropathy, Sensory conduction study in chronic sensory ataxic neuropathy, **941**
Sensory conduction study, Sensory conduction study in chronic sensory ataxic neuropathy, **941**
Sensory loss, Dysaesthesiae induced by physiological and electrical activation of posterior column afferents after stroke, **1077**
Sensory neuropathy
An epidemic of optic neuropathy and painful sensory neuropathy in Cuba, **1288 P**
Sensory neuropathy in hereditary spastic paraplegia, **693**
Septic shock, Cerebral haemodynamics during Gram negative septic shock: a transcranial Doppler study, **1285 P**
Severe closed head injury, Visual information processing after severe closed head injury: effects of forward and backward masking, **818**
Shunts, shunting
Analysis of our experience with the variable pressure Sophy valve system and ventriculojugular shunting against the direction of blood flow, **391 P**
Audit of the MEDOS programmable shunt, **1150 P**
Effect of CSF proteins upon bacterial adhesion to shunt material, **391 P**
Effectiveness of shunting in patients with normal pressure hydrocephalus predicted by temporary, controlled-resistance, continuous lumbar drainage, **1430**
Intracranial pressure monitoring in the management of hydrocephalus and shunt related problems, **1150P**
Stroke patterns in young patients with right-to-left shunts detected by transcranial Doppler ultrasound, **243 P**
Testing explanted shunt valves: reasons for valve failure, **1150P**
United Kingdom CSF Shunt Registry and Shunt Evaluation Unit, **391 P**
Silastic dural substitute, Haemorrhage associated with silastic dural substitute, **646**
Single fibre EMG studies, Single fibre EMG studies in chronic fatigue syndrome, **375**: *matters arising*, **1157**
Single gene neurological disorders, Single gene neurological disorders in South Wales, **518 P**
Single photon emission computed tomography
Heterogeneity of neocortical cerebral blood flow deficits in dementia of the Alzheimer type: a [^{99m}Tc]-*d,l*-HMPAO SPECT study, **285**
HMPAO SPECT in Parkinson's disease before and after levodopa: correlation with dopaminergic responsiveness, **180**
Single photon emission computed tomography in long term survivors of adult brain tumours, **729**
SPECT and MRI findings in Sydenham's chorea: *letter*, **763**
Sirdalud, Correlations between dose, plasma concentrations, and antispastic action of tizanidine (Sirdalud), **1355**
Sixth-nerve palsy, Transient sixth-nerve palsy as the first presentation of acute leukaemia: *letter*, **506**
Sjögren's syndrome
Peripheral neuropathy associated with primary Sjögren's syndrome, **983**
Primary Sjögren's syndrome in chronic polyneuropathy presenting in middle or old age: *letter*, **1276**
Skeletal muscle, Nerve muscle pedicle reinnervation of skeletal muscle, **387 P**
Skull fractures, Depressed skull fractures: conservative or surgical management? **1154 P**
Sleep, Narcolepsy-like sleep episodes as the only manifestation of epilepsy, **516 P**
Sleep apnoea
Case report: dysphagia and sleep apnoea associated with cervical osteophytes due to diffuse idiopathic skeletal hyperostosis (DISH): *letter*, **384**
Daytime sleep in myotonic dystrophy is not caused by sleep apnoea, **626**
Sleep disorders, Sleep disorders: *neurology in literature*, **1413**
Social emotional processing disorder, Right hemisphere learning disability associated with left hemisphere dysfunction: anomalous dominance and development, **1129**
Sodium valproate, A multicentre comparative trial of sodium valproate and carbamazepine in adult onset epilepsy, **682**
Sof'wire, Spinal fixation using a new flexible cable (Sof'wire™), **389 P**
Soleus Ia afferent terminals, Presynaptic inhibition of soleus Ia afferent terminals in Parkinson's disease, **1488**
Solvents, Neuropsychological findings in a non-clinical sample of workers exposed to solvents, **614**
Somatisation, Somatisation in neurological practice: *editorial*, **1161**
Somatosensory evoked potentials, Somatosensory evoked potentials after multisegmental upper limb stimulation in diagnosis of cervical spondylotic myelopathy, **301**
Sophy valve system, An analysis of our experience with the variable pressure Sophy valve system and ventriculojugular shunting against the direction of blood flow, **391 P**
Spastic paraplegia
Autosomal recessive hereditary sensory neuropathy with spastic paraplegia, **1298 P**
Sensory neuropathy in hereditary spastic paraplegia, **693**
Spasticity
Management of severe spasticity with intrathecal baclofen delivered by a manually operated pump, **582**
Pathophysiology of spasticity: *editorial*, **773**
Spatial neglect
Horizontal visual motion modulates focal attention in left unilateral spatial neglect, **1228**
Picturing unilateral spatial neglect: viewer versus object centred reference frames, **1236**
Preserved leftward movement in left unilateral spatial neglect due to frontal lesions, **1085**
Unilateral spatial neglect due to right frontal lobe haematoma, **89**
Spelling dyslexia, Spelling dyslexia: a deficit of the visual word-form, **211**
Spina bifida, Spina bifida and syringomyelia, **388 P**
Spinal arteriovenous malformations, Rapid high resolution and dynamic "blood flow" magnetic resonance imaging detects spinal arteriovenous malformations, **1285 P**
Spinal cord
Brain and spinal cord magnetic resonance imaging in motor neuron disease, **1298 P**
Electrical mapping of the spinal cord, **1149 P**
Infarction of the spinal cord, **250 P**
Infarction of the unilateral posterior horn and lateral column of the spinal cord with sparing of posterior columns: demonstration by MRI, **629**
Spinal cord compression secondary to a thoracic meningeal cyst after subarachnoid haemorrhage: *letter*, **1145**
Spinal cord magnetic resonance imaging in multiple sclerosis: lessons from fast stir, **1298 P**
Spontaneous ejaculation secondary to spinal cord disease: *letter*, **505**
Spinal fixation, Spinal fixation using a new flexible cable (Sof'wire™), **389 P**
Spinal intradural tumours, Spinal intradural tumours: Preston experience, **1156 P**
Spinal radicular artery, Isolated aneurysm of a spinal radicular artery presenting as spinal subarachnoid haemorrhage: *letter*, **767**

Spinobulbar muscular atrophy, Differential diagnosis in spinobulbar muscular atrophy, **1289 P**
Stamps
Alexander Ypsilante (1792-1832), **885**
Casper Wistar (1760-1818), **2**
Charles Babbage (1792-1871), **1025**
Dominique Jean Larrey (1766-1842), **133**
Dorothea Lynde Dix (1802-87), **1465**
François Magendie (1783-1855), **692**
Jacobus Ludovicus Shroeder van der Kolk (1797-1862), **1164**
Jan Evangelista Purkinje (1787-1869), **777**
Marie François Xavier Bichat (1771-1802), **263**
Pierre Fidèle Bretonneau 1778-1862, **403**
Pierre Joseph Pelletier (1788-1842) and Jean Bienaimé Caventou (1795-1887), **1333**
René Théophile Hyacinthe Laënnec (1781-1826), **533**
Status epilepticus
Complex partial status epilepticus: a recurrent problem, **835**
Three cases with status epilepticus during vigabatrin treatment, **1294 P**
Steel cable, Spinal fixation using a new flexible cable (Sof'wire™), **389 P**
Steele-Richardson-Olszewski syndrome, Differential diagnosis of Parkinson's disease, multiple system atrophy, and Steele-Richardson-Olszewski syndrome: discriminant analysis of striatal ^{18}F-dopa PET data, **278**
Stereoacuity, Impaired stereoacuity due to a lesion in the left pulvinar, **652**
Stereoelectroencephalography, Utility of stereoelectroencephalography in preoperative assessment of temporal lobe epilepsy, **58**
Stereotactic biopsy, Role of stereotactic biopsy in multifocal brain lesions, **957**
Stereotaxis
Simple ex vivo technique for teaching image guided stereotactic neurosurgical methodology, **394 P**
Stereotactic guided craniotomy for cavernous angiomas presenting with epilepsy, **395 P**
Stereotaxic target selection for thalamotomy for movement disorders, **1148 P**
The Sheffield experience in the treatment of acoustic neuroma by stereotactic radiosurgery, **1149 P**
Validation of CT targeting for functional stereotaxis with post-operative MRI, **394 P**
Steroids, Pure motor demyelinating neuropathy: deterioration after steroid treatment and improvement with intravenous immunoglobulin, **778**
Stiff man syndrome, Direct evidence for limited clonality of antibodies to glutamic acid decarboxylase (GAD) in stiff man syndrome using baculovirus expressed GAD: *letter*, **659**
Stimulus induced behaviours, Stimulus induced behaviours in Tourette's syndrome, **853**
Striatocapsular motor stroke, Recovery from striatocapsular motor stroke, **509 P**
Stroke
Alphabetical paragraphia in a limited middle cerebral artery stroke, **649**
Anatomical correlates of visual and tactile extinction in humans: a clinical CT scan study, **464**
Anticardiolipin antibodies and cerebral infarction: *matters arising*, **253**
Antithrombotic therapy in acute ischaemic stroke: an overview of the completed randomised trials: *matters arising*, **254**
Are ipsilateral motor projections activated during recovery from stroke? **517 P**
Cognitive impairment after stroke: frequency, patterns, and relationship to functional abilities, **202**
Contralateral cerebellar hypometabolism: a predictor for stroke outcome?, **174**
Corticospinal tract in stroke: an investigation with transcranial magnetic stimulation, **514 P**
Cranial computerised tomographic patterns in different stroke aetiologies, **518 P**
Dysaesthesiae induced by physiological and electrical activation of posterior column afferents after stroke, **1077**
Enhanced physical therapy for arm function after stroke, **856**
Haemorheological deficits are a secondary risk factor for stroke, **518 P**
Handicap one year after a stroke: validity of a new scale, **825**
Incidence of internal carotid artery dissection in the community of Dijon: *letter*, **1443**
International Stroke Trial to test aspirin and heparin in acute ischaemic stroke, **518 P**
MAST trials: *matters arising*, **255**
Non-ischaemic causes of transient ischaemic attacks and minor strokes: *letter*, **659**
Pilot study of intra-arterial thrombolysis for acute ischaemic stroke, **251 P**
Predicting stroke outcome: Guy's prognostic score in practice, **932**
Progressive paraparesis, lymphocytic meningitis, and stroke in a 37-year-old man, **111**
Recovery from striatocapsular motor stroke, **509 P**
Spinal intrathecal baclofen suppresses central pain after a stroke: *letter*, **381**
Stroke patterns in young patients with right-to-left shunts detected by transcranial Doppler ultrasound, **243 P**
Stroke and transient ischaemic attacks, **534**
TIAs: which patients are at high (and low) risk of further vascular events? **508 P**
Stroke-like episodes, Mitochondrial encephalomyopathy, lactic acidosis, and stroke-like episodes (MELAS) in adults, **1293 P**
Subacute cerebellar degeneration, Subacute cerebellar degeneration and Lambert-Eaton myasthenic syndrome associated with antibodies to voltage-gated calcium channels: *letter*, **1138**
Subarachnoid haemorrhage
Effects of earlier transfer, fluid resuscitation, and surgery on the outcome of patients with aneurysmal subarachnoid haemorrhage, **1155 P**
Endothelin and aneurysmal subarachnoid haemorrhage: a study of subarachnoid cisternal cerebrospinal fluid, **66**
Excitotoxic amino acid neurotransmitters are increased in human cerebrospinal fluid after subarachnoid haemorrhage: *letter*, **1442**
Induction of IL-1 in human cerebral cortex following aneurysmal subarachnoid haemorrhage, **393 P**
Isolated aneurysm of a spinal radicular artery presenting as spinal subarachnoid haemorrhage: *letter*, **767**
Management of subarachnoid haemorrhage: *matters arising*, **768**
Spinal cord compression secondary to a thoracic meningeal cyst after subarachnoid haemorrhage: *letter*, **1145**
The role of nitric oxide in vasospasm after subarachnoid haemorrhage, **1155 P**
Subarticular fenestration, Subarticular fenestration for lumbar stenosis, **388 P**
Subcortical laminar heterotopia, Subcortical laminar heterotopia and lissencephaly in two families: a single X linked dominant gene, **914**
Subdural empyema, Short-course antimicrobial therapy for brain abscess and subdural empyema, **390 P**
Subdural haematoma
Bilateral chronic subdural haematoma: an unusual presentation with isolated oculomotor nerve palsy: *letter*, **1146**
"Ease of falling" syndrome associated with subdural haematoma: *letter*, **1144**
Nystagmus as the presentation of tentorial incisure subdural haematoma, **830**
Subependymal heterotopia, Subependymal heterotopia: a distinct neuronal migration disorder associated with epilepsy, **1195**
Subthalamotomy, Subthalamotomy improves MPTP-induced Parkinsonism in monkeys, **246 P**
Suicide, Heautoscopy, epilepsy, and suicide, **838**
Sumatriptan, Sumatriptan and giant cell arteritis: *letter*, **660**
Superior sagittal sinus thrombosis, Congenital protein C deficiency and superior sagittal sinus thrombosis causing isolated intracranial hypertension, **655**
Supplementary motor area, Normal activation of the supplementary motor area in patients with Parkinson's disease undergoing long-term treatment with levodopa, **567**
Supranuclear palsy
Cognitive deficits in progressive supranuclear palsy, Parkinson's disease, and multiple system atrophy in tests sensitive to frontal lobe dysfunction, **79**
Olfactory function in progressive supranuclear palsy and corticobasal degeneration, **251 P**
Supratentorial brain infarction, Isolated hemiataxia after supratentorial brain infarction, **742**
Surgeon, Effect of grade of surgeon on the outcome of aneurysm surgery, **1156 P**
Surgical planning, Accurate 3D combination and display of MR, CT, and MRA images for surgical planning, **392 P**
Sweating, Botulinum toxin and sweating: *letter*, **1437**
Sweden, Familial clustering of multiple sclerosis in a northern Swedish rural district, **497**
Sydenham's chorea, SPECT and MRI findings in Sydenham's chorea: *letter*, **763**
Sydney Multicentre Study, The Sydney Multicentre Study of Parkinson's disease: a randomised, prospective five year study comparing low dose bromocriptine with low dose levodopa-carbidopa, **903**
Syringomyelia
Birth injury as a causative factor of syringomyelia with Chiari type I deformity, **373**
Critical appraisal of drainage in syringomyelia, **1156 P**
Post-traumatic syringomyelia, **1095**
Primary empty sellae associated with syringomyelia, **250 P**
Spina bifida and syringomyelia, **388 P**
Thecoperitoneal shunt for post-traumatic syringomyelia, **755**
Systemic lupus erythematosus

Antibodies against gangliosides in patients with systemic lupus erythematosus and neurological involvement, **242 P**

Ischaemic optic neuropathy, transverse myelitis, and epilepsy in an anti-phospholipid positive patient with systemic lupus erythematosus: *letter*, **1142**

T

T cells

Alterations in suppressor-inducer T cells in multiple sclerosis and other neurological diseases, **246 P**

Autoimmune T cell repertoire in optic neuritis and multiple sclerosis: T cells recognising multiple myelin proteins are accumulated in cerebrospinal fluid, **544**

T cell receptor V, usage in Guillain-Barr syndrome, **248 P**

Tachistoscopic tasks, Visual information processing after severe closed head injury: effects of forward and backward masking, **818**

Tactile extinction, Anatomical correlates of visual and tactile extinction in humans: a clinical CT scan study, **464**

Tarsal tunnel syndrome, Bilateral tarsal tunnel syndrome: *letters*, **239**, **1019**

Taxol, Peripheral neuropathy induced by paclitaxel (taxol)

99mTechnetium HMPAO

Heterogeneity of neocortical cerebral blood flow deficits in dementia of the Alzheimer type: a [99mTc]-*d,l*-HMPAO SPECT study, **285**

HMPAO SPECT in Parkinson's disease before and after levodopa: correlation with dopaminergic responsiveness, **180**

Teleradiology system, Report of a national neurosurgical teleradiology system based on optical scanning technology, **1148 P**

Telling the time, Horologagnosia: an impairment of the ability to tell the time: *letter*, **384**

Temporal arteritis

Cervical radiculopathy and bilateral internuclear ophthalmoplegia caused by temporal arteritis: *letter*, **764**

Sir Johathan Hutchinson (1828-1913) and an early description of temporal arteritis, **216**

Temporal lobe

Cognitive event related potentials and temporal lobe dysfunction, **513 P**

Is Wada testing helpful in lateralising seizure focus before temporal lobe surgery for epilepsy? **1151 P**

Temporal lobe epilepsy

Everyday spatial memory and orientation after surgery for temporal lobe epilepsy, **1152 P**

Factors predictive of a good response to temporal neocorticectomy in temporal lobe epilepsy, **508 P**

Image guided audit of surgery for temporal lobe epilepsy, **1221**

Outcome of surgery for chronic temporal lobe epilepsy: anterior temporal lobectomy *v* selective amygdalohippocampectomy, **1151 P**

Temporal lobectomy

Amygdalar sclerosis: preoperative indicators and outcome after temporal lobectomy, **1099**

Outcome of surgery for chronic temporal lobe epilepsy: anterior temporal lobectomy *v* selective amygdalohippocampectomy, **1151 P**

Temporalis muscle reflex, Impairment of inhibitory temporalis muscle reflex in whiplash injury, **521 P**

Tenascin, Tenascin in cerebrospinal fluid is a useful biomarker for the diagnosis of brain tumour, **1212**

Tentorial incisure subdural haematoma, Nystagmus as the presentation of tentorial incisure subdural haematoma, **830**

Tests, Measuring ataxia: quantification based on the standard neurological examination, **22**

Tetanus, Tetanus: delay in diagnosis in England and Wales, **1006**

Thalamic cyst, Benign thalamic cyst presenting with contralateral postural tremor: *letter*, **1139**

Thalamus

Abnormal movement related potentials in patients with lesions of basal ganglia and anterior thalamus, **100**

Demonstration of thalamic activation during absence seizures using $H_2{}^{15}O$ positron emission tomography, **245 P**

Pure amnesia after unilateral left polar thalamic infarct: topographic and sequential neuropsychological and metabolic (PET) correlations, **27**: *matters arising*, **1157**

Thalamus stimulation, a treatment for Parkinsonian tremor, **1297 P**

Unilateral asterixis due to a lesion of the ventrolateral thalamus, **116**; correction, **878**

Thecoperitoneal shunt, Thecoperitoneal shunt for post-traumatic syringomyelia, **755**

Theiler's virus-induced demyelination, Promotion of remyelination by polyclonal immunoglobulin in Theiler's virus-induced demyelination and in multiple sclerosis, **S54**

Theiler's virus model, Intravenous immunoglobulin G therapy in multiple sclerosis: progress from remyelination in the Theiler's virus model to a randomised, double-blind, placebo-controlled clinical trial, **S11**

Theophylline, Amnesic syndrome after theophylline associated seizures: iatrogenic brain injury, **643**

Third occipital nerve headache, Third occipital nerve headache: a prevalence study, **1187**

Third ventricle cysts, Mesencephalic and third ventricle cysts: diagnosis and management in four cases, **1216**

Thoracic cord dysfunction, Anterior spinal hernia: an increasingly recognised cause of thoracic cord dysfunction, **1433**

Thoracic meningeal cyst, Spinal cord compression secondary to a thoracic meningeal cyst after subarachnoid haemorrhage: *letter*, **1145**

Thrombolysis, A pilot study of intra-arterial thrombolysis for acute ischaemic stroke, **251 P**

Thrombosis, Spontaneous thrombosis of an arteriovenous malformation, **1410**

Thymoma, Ryanodine receptor antibodies related to severity of thymoma associated myasthenia gravis, **843**

Tizanidine, Correlations between dose, plasma concentrations, and antispastic action of tizanidine (Sirdalud), **1355**

Todd, Robert Bentley

Robert Bentley Todd (1809-60) and locomotor ataxia, **359**

Robert Bentley Todd (1809-60) and Todd's paralysis, **315**

Tomaculous neuropathy, Tomaculous neuropathy: *neurological picture*, **16**

Tonic clonic seizures, Carbamazepine in the treatment of generalised tonic clonic seizures in juvenile myoclonic epilepsy: *letter*, **503**

Topographical amnesia, Transient topographical amnesia, **1423**

Torsion dystonia, Intrafamilial correlation in idiopathic torsion dystonia, **509 P**

Torticollis, Localised autonomic failure due to botulinum toxin injection: *neurological picture*, **1320**

Total lymphoid irradiation, Total lymphoid irradiation in multiple sclerosis, **154**

Tourette's syndrome

PET studies of the presynaptic and postsynaptic dopaminergic system in Tourette's syndrome, **688**

Stimulus induced behaviours in Tourette's syndrome, **853**

***Toxocara canis* encephalitis**, Adult *Toxocara canis* encephalitis, **229**

Tracheostomy, Randomised controlled trial of percutaneous and conventional tracheostomy in neurosurgical patients, **1156 P**

Transcallosal inhibition, Transcallosal inhibition of the motor cortex in patients with hemiplegia of vascular origin, **514 P**

Transcallosal intraventricular tumour excision, Transcallosal intraventricular tumour excision, alcohol abuse, and amnestic syndrome: *letter*, **766**

Transcranial colour imaging, Transcranial colour imaging and "ultrasound angiography" of cerebral arteriovenous malformations, **1295 P**

Transcranial magnetic stimulation

Corticospinal tract in stroke: an investigation with transcranial magnetic stimulation, **514 P**

Saccadic eye movements are impaired by transcranial magnetic stimulation, **514 P**

Transient cerebral ischaemia, Dynamic magnetic resonance imaging for measurement of regional haemodynamics after transient cerebral ischaemia, **387 P**

Transient epileptic amnesia, Transient epileptic amnesia differentiated from psychogenic "fugue": neuropsychological, EEG, and PET findings, **1002**

Transient global amnesia

Are brief or recurrent transient global amnesias of epileptic origin?, **622**

Semantic memory and frontal executive function during transient global amnesia, **605**

Transient ischaemic attacks

Non-ischaemic causes of transient ischaemic attacks and minor strokes: *letter*, **659**

Stroke and transient ischaemic attacks, **534**

TIAs: which patients are at high (and low) risk of further vascular events? **508 P**

Transient memory loss, Transient memory loss for people, **862**

Transphenoidal surgery, Visual outcome after transphenoidal surgery in elderly patients, **1149 P**

Transverse myelitis, Ischaemic optic neuropathy, transverse myelitis, and epilepsy in an anti-phospholipid positive patient with systemic lupus erythematosus: *letter*, **1142**

Tremor

Assessing tremor severity with long-term tremor recordings: *matters arising*, **397**

Change in the concentrations of amino acids in cisternal CSF of patients with essential tremor: *letter*, **1012**

Essential tremor: *neurology in literature*, **1478**

Familial paroxysmal tremor: an essential tremor variant: *matters arising*, **1019**

Limb temperature and human tremors, **35**

Trials, Archie Cochrane's challenge: can periodically updated reviews and *all* randomised controlled trials relevant to neurology and neurosurgery be produced: *editorial*, **529**

Triamcinolone-acetonide, Intrathecal treatment with triamcinolone-acetonide of patients with disseminated encephalomyelitis, **522 P**

Trigeminal neuralgia
Anatomy of neurovascular compression of the lower cranial nerves, **1151 P**
Cerebral responses to trigeminal neuralgia pain measured by positron emission tomography, **1149 P**
Relief of trigeminal neuralgia by proparacaine: *letter*, **121**
Trigeminal neuralgia due to contralateral meningioma of the posterior cranial fossa: *letter*, **1010**
Trigeminal neuropathy, Isolated intracranial hypertension presenting with trigeminal neuropathy: *letter*, **381**
Tullio phenomenon, Click-evoked vestibular activation in the Tullio phenomenon, **1538**
Tulp, Nicolaus, Bontius and Tulp on beriberi polyneuropathy, **637**
Tulpius, Nicolaus Petreus, Nicolaus Petreus Tulpius (1593-1674) on headaches, **625**
Tumour necrosis factor-α, Tumour necrosis factor-α and other cytokines in Guillain-Barré syndrome, **1118**
Tunisia, Tunisian Duchenne-like autosomal recessive muscular dystrophy: from the clinical description to gene mapping, **248 P**
Twin study, National motor neuron disease twin study: final results, **242 P**
Twins, British Isles survey of multiple sclerosis in twins: MRI, **491**
Twitch properties, Muscle strength, voluntary activation, twitch properties, and endurance in patients with fibromyalgia, **1106**
Typical absence seizures, Typical absence seizures in adults: I. Clinical-EEG and video-EEG findings in 23 patients: II. Syndromic classification, **512 P**
Tyrosine hydroxylase, Loss of non-phosphorylated neurofilament immunoreactivity, with preservation of tyrosine hydroxylase, in surviving substantia nigra neurons in Parkinson's disease, **1039**

U
Unilateral neglect, Residual rightward attentional bias after apparent recovery from right hemisphere damage: implications for a multicomponent model of neglect, **597**
Unilateral sensory or motor symptoms, Investigation of unilateral sensory or motor symptoms: frequency of neurological pathology depends on side of symptoms, **1401**
Upper limb stimulation, Somatosensory evoked potentials after multisegmental upper limb stimulation in diagnosis of cervical spondylotic myelopathy, **301**

V
Vascular dementia, Apolipoprotein E polymorphism in Japanese patients with Alzheimer's disease or vascular dementia, **1414**
Vasculitis, Endothelial cells in vasculitis of peripheral nerve and skeletal muscle, **518 P**
Vasospasm
Endothelin and aneurysmal subarachnoid haemorrhage: a study of subarachnoid cisternal cerebrospinal fluid, **66**
The role of nitric oxide in vasospasm after subarachnoid haemorrhage, **1155 P**
Vasovagal attacks, Vasovagal attacks: *neurology in literature*, **789**
Ventral pontine infarction, Separation of voluntary and limbic activation of facial and respiratory muscles in ventral pontine infarction: *letter*, **1281**
Ventricular fibrillation, Outcome after resuscitation for ventricular fibrillation, **516 P**
Vertebral artery injury, Delayed symptoms and death after minor head trauma with occult vertebral artery injury, **500**
Vertebrobasilar dolichoectasia, Vertebrobasilar dolichoectasia and exertional headache: *letter*, **1544**
Very long chain fatty acids
High dose immunoglobulin IV treatment in adrenoleukodystrophy, **S58**
X-linked adrenoleukodystrophy with non-diagnostic plasma very long chain fatty acids, **759**
Vestibulo-ocular reflex, Measurement of the human vestibulo-ocular reflex in three dimensions, **523 P**
Vestibulocollic reflex, Myogenic potentials generated by a click-evoked vestibulocollic reflex, **190**
Video camcorder, Use of the hand held video camcorder in the evaluation of seizures, **1417**
Video games
Findings from the national survey of electronic screen game seizures, **1290 P**
Video game associated seizures: heterogeneous phenomena, **247 P**
Video game induced seizures, **925**
Vigabatrin
Effects of vigabatrin on partial seizures and cognitive function, **1057**
Three cases with status epilepticus during vigabatrin treatment, **1294 P**
Vigabatrin and lamotrigine in refractory epilepsy, **921**
Virus-induced demyelination, The impact of the intracerebral antibody response on the clinical course of a virus-induced demyelination in a rat model system, **S18**
Visual extinction, Anatomical correlates of visual and tactile extinction in humans: a clinical CT scan study, **464**
Visual failure
Optic nerve sheath decompression for the treatment of visual failure in chronic raised intracranial pressure, **1426**
Papilloedema and visual failure in a patient with nocturnal hypoventilation: *letter*, **1546**
Visual information processing, Visual information processing after severe closed head injury: effects of forward and backward masking, **818**
Visual motion, Horizontal visual motion modulates focal attention in left unilateral spatial neglect, **1228**
Visual outcome, Visual outcome after transphenoidal surgery in elderly patients, **1149 P**
Visual processing, Precortical dysfunction of spatial and temporal visual processing in migraine, **1208**
Visual rating, Visual rating of hippocampal atrophy: correlation with volumetry: *letter*, **1015**
Visual size perception, Selective deficit of visual size perception: two cases of hemimicropsia, **73**
Visually induced central pain, Visually induced central pain and arm withdrawal after right parietal lobe infarction, **850**
Von Monakow C, Von Monakow and diaschisis, **197**
von Recklinghausen's disease, Intracranial fusiform aneurysms in von Recklinghausen's disease: *letter*, **1279**

W
Wada tests, Is Wada testing helpful in lateralising seizure focus before temporal lobe surgery for epilepsy? **1151 P**
Walking, Ability to modulate walking cadence remains intact in Parkinson's disease, **1532**
Wallenberg's syndrome, Wallenberg's syndrome with delayed onset after cervical spine fracture: *letter*, **868**
Welander myopathy, Distal myopathy in a Dutch family: a variant of Welander myopathy? **1298 P**
Whiplash
Common whiplash: psychosomatic or somatopsychic?, **486**
Impairment of inhibitory temporalis muscle reflex in whiplash injury, **521 P**
Whipple's disease, Whipple's disease as a rare cause of encephalitis, **514 P**
White matter disease, Effect of white matter disease on functional connections in the aging brain, **1347**
White matter magnetic resonance hyperintensities, White matter magnetic resonance hyperintensities in dementia of the Alzheimer type: morphological and regional cerebral blood flow correlates, **1458**
White matter structures, Diencephalic amnesia: possible role of white matter structures: *matters arising*, **1157**
Wilson's disease, Wilson's disease: neurological and magnetic resonance imaging improvement on zinc treatment: *letter*, **1273**
Wrong-way eyes, Wrong-way eyes, **1298 P**
Wynter, Walter Essex, Walter Essex Wynter, Quincke, and lumbar puncture, **179**

X
X-linked adrenoleukodystrophy, X-linked adrenoleukodystrophy with non-diagnostic plasma very long chain fatty acids, **759**
X linked dominant gene, Subcortical laminar heterotopia and lissencephaly in two families: a single X linked dominant gene, **914**

Z
Zimbabweans, Multiple sclerosis in black South Africans and Zimbabweans, **1064**
Zinc treatment, Wilson's disease: neurological and magnetic resonance imaging improvement on zinc treatment: *letter*, **1273**
